the use and abuse of military history is the theme of this book the author scrutinizes the army's first systematic attempt to use military history to educate its future leaders and traces the army's struggle from the end of the civil war to claim intellectual authority over the study of war

an illustrated history of warfare in the ancient world includes detailed examinations of armies' equipment and strategies before gunpowder in a volume that offers insight into the successes of the assyrian and roman forces

om elektronisk krigsførelse passive and active jamming radar ecm countermeasures defence suppression elektronisk overvågning threat warning systems esm sigint m v

american multi volume work on infantry technique and tactics published by the infantry school 1942 1945 a work that appeared in several editions both volumes contain assignments including answers and both volumes enclosed a protractor and a single map as a loose appendix

this pioneering study focuses on the experiences and writings of the surprisingly large number of prussian british and french military observers who witnessed the civil war firsthand luvaas's fascinating account reveals why they came what they wrote what their armies learned or failed to learn from their reports and how their writings influenced later european military theorists for this edition luvaas has added a thoughtful introduction that analyzes why some military lessons are learned and others ignored and examines the extent to which such lessons can be applied to subsequent conflicts

for centuries the world has witnessed the development and use of increasingly complex and powerful military systems and technologies in the process the art of war has truly become the art of combined arms warfare in which infantry artillery air support intelligence and other key elements are all coordinated for maximum effect nowhere has this trend been more visible than in the history of twentieth century warfare originally published as an essential in house study for

u s army officers during the 1980s this much revised and expanded edition remains the most complete study available on the subject rewritten with a much wider readership in mind it both retains its enormous practical utility for military professionals and provides a valuable and appealing introduction for scholars and general readers jonathan house author of the original work brings the story of combined arms up to the present covering among other things desert storm the war in chechnya and the rise of smart weapons and related technologies he traces the evolution of tactics weapons and organization in five major militaries american british german russian and french over 100 years of warfare revealing both continuities and contrasts within and between these fighting forces he also provides illuminating glimpses of israeli and japanese contributions to combined arms doctrine expanding his insightful analysis of the world wars and the wars in korea and vietnam house also offers much new material focused on the post vietnam period throughout he analyzes such issues as command and control problems of highly centralized organizations the development of special operations forces advances in weapons technology including ballistic and anti ballistic missile systems the trade offs involved in using heavy versus light armed forces and the enduring obstacles to effective cooperation between air and land forces his strong critique of the air superiority propaganda that came out of the gulf war is sure to spark some heated debates rigorously comparative house s study addresses significant questions about how nations prepare for war learn or don t learn its harsh lessons and adapt to changing times and technologies unique in the annals of the literature on warfare it will be the standard work on this subject for a long time to come

zhang argues that war in korea offered mao yet another opportunity to expand and consolidate his political power at home while at the same time uniting the chinese proletariat against yankee imperialism and proving to the international community that china had arrived as a major world power
