from the introduction we shall base our discussion on a set theoretical foundation like that used in developing analysis
or algebra or topology we may consider our task as that of giving a mathematical analysis of the basic concepts of logic
and mathematics themselves thus we treat mathematical and logical practice as given empirical data and attempt to develop
a purely mathematical theory of logic abstracted from these data there are 31 chapters in 5 parts and approximately 320
exercises marked by difficulty and whether or not they are necessary for further work in the book

the american journal of mathematics publishes research papers and articles of broad appeal covering the major areas of
