widening its investments into new sectors such as entertainment and electric cars ma the first chinese entrepreneur to appear on the cover of forbes and the third richest man in china has a net worth that is estimated to be more than 39 billion but despite ma s massive influence in china and in the global tech world his inspirational rags to riches story is relatively unknown to the general american public jack ma in his own words is a detailed look at the thoughts and words of arguably the most prominent figure in internet entrepreneurship in the past 20 years made up entirely of ma s own thought provoking and candid quotes many of these quotes are translated directly from the chinese press and interviews for readers who do not read chinese and have no other access to these materials this book provides invaluable insight into the mind of one of the world s most successful business magnates

this book examines the political economic dynamics in the development of a leading global internet giant alibaba as both a prominent example of as well as providing the basic infrastructure for china s outward expansion alibaba demonstrates the complex interplay between different state agencies and units of capital in the context of the rise of global china hong shen investigates the development and expansions of alibaba and discusses how alibaba has not only become a leader of china s increasingly globalizing internet but has also increasingly served as a basic infrastructure model for other chinese companies to go global shen also addresses how this process has been constantly shaped and reshaped by complex state capital interactions along the way this book shows how different units of capital both inside and outside of china have interacted with alibaba s developmental strategies and illustrates how different state agencies both domestic and international have enabled or constrained the company s development especially its global expansion this book will appeal to students and scholars of critical political economy of media global media and digital industries communication technology and society and internet studies it will also be relevant to policy makers working in the arena of global internet and trade policies

there s a particular kind of magic that happens when someone refuses to accept their limitations jack ma the founder of alibaba embodies that magic in a way that s both inspiring and instructive his story isn t one of privilege or obvious preparation for success it s a story about a man who was told repeatedly that he wouldn t succeed who failed at multiple ventures before finding his breakthrough and who ultimately built one of the world s most valuable companies from

scratch when i first learned about jack ma s journey i was struck by how counterintuitive it seemed here was a man who failed the college entrance exam twice he taught english at a provincial college for several years his first business ventures flopped by conventional measures he wasn t positioned to become one of the most influential business leaders in the world and yet that s exactly what happened what makes ma s story particularly relevant today is that his success wasn t built on inherited wealth or family connections it wasn t built on following a predetermined path or having all the advantages lined up from the beginning instead it was built on something more fundamental a refusal to accept conventional wisdom about what was possible combined with an extraordinary ability to see opportunities where others saw obstacles

it is difficult to overstate the importance of china to the world economy and yet the majority of books either look at chinese business by applying western frameworks or models to the context of china or focus on a particular aspect of business in china authored by an academic expert on china this new completely revised edition of chinese business offers its readers a comprehensive and systematic body of knowledge of chinese business it has taken a holistic perspective intending to achieve a balance between the academic and practical between theory and practice and between traditional and current internet based industry the framework of this book subsumes all the major factors that should be taken into consideration when western companies contemplate a china strategy including history philosophy ancient military classics strategy and marketing innovation internet business and human resources the discussion of these factors is supplemented with insightful case studies chinese business second edition can be used as a textbook for undergraduates and postgraduates at business schools and as a useful reference for researchers senior executives consultants and government officials involved in chinese business
