despite the promise of the new second republic launched in the early 1990s Italy remains Europe's least well governed country fifteen years ago politicians on the take and mafiosi on the make were supposedly pushed aside by a new generation of reformers and crusading magistrates however in this new book a team of leading experts on Italy uncovers little real progress badly needed reforms have foundered on bickering between the parties and their ego centric leaders both left and right wing coalitions have been guilty of impeding the anti corruption revolution little has been done to improve the quality of public expenditure infrastructure and education systems remain shambolic and decades of periodic devaluation and deficit spending have left the economy structurally weakened Italy's politicians are not just masters of trasformismo an ability to reinvent and present themselves anew to voters but of stratificazione or layering the introduction of new policies and institutions without replacing those that preceded them the result is a damaging mix of obsolete and contradictory legislation the product of bargaining over reform by chronically weak governments in a veto ridden polity the outcome immobilismo is a system in which all parties and democratic government itself are steadily losing legitimacy this book was published as a special issue of west European politics
