the first study to deal with thomas more s english poetry with portrait

crasson examines the status of poverty in late medieval england as both a sacred imitation of christ and a social stigma

studies of medieval poverty tend to focus on a few works particularly piers plowman and related texts and on the indigent and rural poor this book presents a comprehensive view of poverty at different social levels from aristocrat to pauper and the way in which poverty is employed as a topos to reflect social and moral concerns the literary works primarily from the fourteenth century and set within a cultural historical context represent a broad range of authors and genres including romance chronicle satire complaint homily hagiography treatise and drama and include both well and lesser known pieces there is a strong focus on the historical and literary solutions to poverty as well as factors that influenced the complex and often conflicting attitudes towards the poor

on alienation in 20th century indian poetry in english

william langland wrote three distinct versions a b and c of piers plowman scribes and early editors produced several more combined versions of a and c of the fifty four more or less complete surviving manuscripts of the poem seventeen are of the b version which is now the most widely read and also the version with the most complex textual history all the surviving witnesses are full of errors some the result of incompetence others the product of sophisticated re writing this book looks at this in the context of understanding poverty which the poem famously addresses the book should be of interest to scholars in the field of medieval literature in general and piers plowman in particular as well as to cultural historians of poverty it surveys the medieval understanding of poverty in its many manifestations reviews modern historians research into the experience of poverty and poor relief in the late fourteenth century and shows by close readings of piers plowman how langland both responds to and reflects his contemporary culture and ideology contrary to previous scholarship it suggests that langland never underestimates the realities of material poverty by offering only religious consolation for the poor for him care for the poor is the index of how a society shapes itself ethically this book s subtle and penetrating account of the moral predicaments of both rich and poor is fully and freshly contextualized within accounts of medieval poor relief this scholarly compelling and humane study demonstrates that understanding the historical poor and the various religious and secular attitudes to medieval poverty are crucially important in deepening a reader s understanding of this complex poem

from the preface this collection of lessons and assignments reflects our conviction that good teaching should make the composition classroom a place of initiation as well as instruction in which the teacher becomes the catalyst for a growing engagement with reading and writing showing students not only how to read and write but also why they should care about the whole enterprise in fulfilling this purpose most teachers act as practitioners not theorists or researchers and are habitually incorrigibly and in our view appropriately eclectic in their methods no theory can be adequate to all situations what most teachers want to know is what works the enthusiasm and generosity with which teachers all over the country have responded to our invitation to submit their best lessons and assignments indicates that this need is widely felt and we hope the collection will be of service not only to new teachers but also to experienced teachers who wish to keep their teaching fresh and effective in choosing the lessons we have welcomed widely different styles and strategies in teaching since we feel that good teaching in composition is necessarily more diverse and probably more difficult than in almost any other subject and that it grows out of a teacher's own instincts and experience thus we endorse no single method or vocabulary but have tried to represent a range of temperaments approaches teaching levels student bodies and institutions we think that teachers of many kinds will find here material for inspiration instruction or emulation

this study traces borges' career as a poet from his earliest poetic endeavors before the 1923 publication of *Fervor de Buenos Aires* through the middle of the 1960's paul cheselka considers borges' better known poetry collections such as *Fervor de Buenos Aires* *Luna de enfrente* and *Cuaderno San Martín* and he shows the often neglected 1930-1960 period to be an important phase in the evolution of borges' poetry the poems are studied chronologically with particular emphasis on the relation of their themes to the poet's life and ideas cheselka's contribution is that of providing a clearer delineation of borgesian poetics the poems themselves are shown to be the evidence and very substance of the poet's definitions

intended as a celebration of the self-renewal of the latin american church this text examines such topics as the theology of liberation life in christian communities and ecumenical response to human rights violations and evaluates the effects of the current latin american economic crisis
