the aptitude myth addresses the decline in american children s mastery of critical school subjects it contends that a contributing cause for this decline derives from many americans ways of thinking about children s learning they believe that school performance is determined very largely by innate aptitude the aptitude myth traces the deep historical origins the spread and elaboration and the eventual triumph of the belief in the determining power of mental abilities given at birth and therefore fixed covered is 600 b c e until 1926 when the s a t was first administered the belief in aptitude assumed by many americans to be the modern view of learning ability is revealed as an archaic way of thinking that originated in the imaginations of our ancient forebears and gradually gained credibility over 2 500 years in recent times the belief became elaborated to include the fanciful notion that more than modest academic study injures a child s health having inherited this mindset americans don t know how to insure that children gain mastery a new mindset is needed the final chapter offers a transformative mindset

the academy in crisis is a provocative contribution to an important debate the costs of goverment support for american universities are not negligible they include stress on some of the core values of universities and of science vaules like openness collaboration and collegiality and pressure too on other central institutional responsibilities such as the education of undergradutes robert m rosenzweig former president association of american universities

in response to the nationwide attacks on education in the name of educational reform packaged in no

child left behind general analyses and local accounts of these attacks as well as arguments on behalf of authentic educational reform are badly needed this volume offers a useful combination of specific case studies theory and policy gerald coles educational psychologist us challenging the compassionate conservative agenda for educational reform an agenda which seeks to improve american education through a business model focused on scripted lessons lock step approaches to teaching high stakes testing and rigid accountability measures this book critiques the assumptions of this agenda examines the problems that have riddled its implementation in schools and suggests constructive alternatives educational theorists and researchers including joel spring sonia nieto bill ayers and susan ohanian classroom teachers and parents offer a mix of perspectives on the social and political contexts of current educational reform initiatives the impact of the compassionate conservative agenda on educational policies and practices the ways in which children and teachers are affected by this agenda and its policies and approaches that hold out hope for implementing authentic education reform intended for education professionals students and scholars what is authentic educational reform poses more questions than it answers but taken together these questions constitute a foundation for a more informed and thoughtful public conversation about how to refocus reform efforts in a direction that will truly strengthen american public education for all children and their families

this engaging text examines issues in education and curriculum theory from multiple critical perspectives students are encouraged to look at education from the inside the complex processes methods and relations that operate within schools and from the outside the larger social economic and political forces that have affected schools over time each essay begins with guiding questions and concludes with questions for discussion teachers as researchers activities and suggested readings

the tactics lore legacy and allure of american deer hunting

this volume puts forth an original theoretical framework the ludonarrative model for studying video games which foregrounds the empirical study of the player experience the book provides a comprehensive introduction to and description of the model which draws on theoretical frameworks from multimodal discourse analysis game studies and social semiotics and its development out of participant observation and qualitative interviews from the empirical study of a group of players the volume then applies this approach to shed light on how players experiences in a game influence how they understand and make use of game components in order to progress its narrative the book concludes with a frame by frame analysis of a popular game to demonstrate the model s principles in action and its subsequent broader applicability to analyzing video game interaction and design offering a new way forward for video game research this volume is key reading for students and scholars in multimodality discourse analysis game studies interactive storytelling and new media

this text relates selected american educational issues to the broader themes of individual and social justice thus issues such as equal opportunity student classification curriculum and democracy in schooling are all seen in the light of a broader concern with justice

intersections feminisms early childhoods presents a continuing dialogue among early childhood educators who name themselves as feminists essays by individual contributors are woven together by the coeditors as they interrogate the relationship of feminist theory to early childhood practice in considering the identity of feminist early childhood educators the first section of this book reconsiders historical events in early childhood education from a feminist perspective in many cases renaming the issues and reclaiming the history the second section of the book reflects on early childhood practice and feminist pedagogy through the narratives of practicing early childhood professionals working in day care public school and university settings the final section of the book examines significant issues facing early childhood from a feminist perspective including the roles and representations of women and children the analysis of economic and cross cultural realities of child care and the consideration of public policy

this book explores intersections between spirituality social justice and world language learning it highlights their relevance to teacher education classroom practices and theoretical discussions the essays aim to open fresh questions and show the importance of these intersections in academic and social contexts

explores an elaborate genealogy of anti authoritarian thought

in eros as the educational principle of democracy kerry t burch argues that eros as a form of love should be treated as the defining educational principle of critical pedagogy and democratic citizenship in tracing representations of eros from ancient to contemporary times including recent feminist accounts burch s genealogical analysis highlights the remarkable yet unrecognized conceptual affinities that link eros to democracy the author illuminates how qualities and values central to democracy such as questioning the intense desire to know to revise to envision a perceived good and to participate in a community of inquirers are social dispositions enabled by the emotional faculties of eros in rewriting eros as an organizing principle burch provides an interpretive framework that dares to step outside the liberal paradigm in its search to deepen and extend democratic political education
