in america s constitution one of this era s most accomplished constitutional law scholars akhil reed amar gives the first comprehensive account of one of the world s great political texts incisive entertaining and occasionally controversial this biography of america s framing document explains not only what the constitution says but also why the constitution says it we all know this much the constitution is neither immutable nor perfect amar shows us how the story of this one relatively compact document reflects the story of america more generally for example much of the constitution including the glorious sounding we the people was lifted from existing american legal texts including early state constitutions in short the constitution was as much a product of its environment as it was a product of its individual creators inspired genius despite the constitution s flaws its role in guiding our republic has been nothing short of amazing skillfully placing the document in the context of late eighteenth century american politics america s constitution explains for instance whether there is anything in the constitution that is unamendable the reason america adopted an electoral college why a president must be at least thirty five years old and why for now at least only those citizens who were born under the american flag can become president from his unique perspective amar also gives us unconventional wisdom about the constitution and its significance throughout the nation s history for one thing we see that the constitution has been far more democratic than is conventionally understood even though the document was drafted by white landholders a remarkably large number of citizens by the standards of 1787 were allowed to vote up or down on it and the document s later amendments eventually extended the vote to virtually all americans we also learn that the founders constitution was far more slavocratic than many would acknowledge the three fifths clause gave the south extra political clout for every slave it owned or acquired as a result slaveholding virginians held the presidency all but four of the republic s first thirty six years and proslavery forces eventually came to dominate much of the federal government prior to lincoln s election ambitious even handed eminently accessible and often surprising america s constitution is an indispensable work bound to become a standard reference for any student of history and all citizens of the united states

no detailed description available for the constitutional history and constitution of the church of england

for more than two centuries the u s supreme court has provided a battleground for nearly every controversial issue in our nations history this veteran team of talented historians produces the most readable astute and up to date single volume history of this venerated institution
