who are the most important actors in the peacebuilding process in post war liberia how do

they interact in specific institutions on the ground and what are the factors behind the slow pace of the post war reform process this book designed as a qualitative case study with a strong descriptive component provides answers to these questions it highlights the importance of the domestic political landscape for the ultimate fate of the reforms and the role of influential individuals in the process its findings indicate that despite a rich critical academic debate the current practice of peacebuilding remains shaped by the neo liberal paradigm and remains rather disconnected from the post conflict realities and individuals on the ground

every year between 250 000 and 500 000 people suffer a spinal cord injury with road traffic crashes falls and violence as the three leading causes people with spinal cord injury are two to five times more likely to die prematurely they also have lower rates of school enrollment and economic participation than people without such injuries spinal cord injury has costly consequences for the individual and society but it is preventable survivable and need not preclude good health and social inclusion ensuring an adequate medical and rehabilitation response followed by supportive services and accessible environments can help minimize the disruption to people with spinal cord injury and their families the aims of international perspectives on spinal cord injury are to assemble and summarize information on spinal cord injury in particular the epidemiology services interventions and policies that are relevant together with the lived experience of people with spinal cord injury make recommendations for actions based on this evidence that are consistent with the aspirations for people with disabilities as expressed in the convention on the rights of persons with disabilities
