anthropology and linguistics as historically developing disciplines  
have had partly separate roots and traditions in particular settings  
and in general the two disciplines have partly shared partly differed  
in the nature of their materials their favorite types of problem the  
personalities of their dominant figures their relations with other  
disciplines and intellectual current the two disciplines have also  
varied in their interrelation with each other and the society about  
them institutional arrangements have reflected the varying degrees of  
kinship kithship and separation such relationships themselves form a  
topic that is central to a history of linguistic anthropology yet  
marginal to a self contained history of linguistics or anthropology  
as either would be conceived by most authors there exists not only a  
subject matter for a history of linguistic anthropology but also a

definite need

over the years linguistic anthropological research has shown how classrooms are socializing institutions and how language functions as one medium through which this socialization is accomplished early work in the field has captured the immediacy of social practice and language use in educational contexts and has created useful characterizations of variations in communicative competence the present work builds on the strengths of prior work showing how new theoretical concepts and empirical methods developed in linguistic anthropology over the last decade can further illuminate educational settings the authors introduce an updated linguistic anthropology of education which recognizes that in the rapidly changing field of cultural production within which children and teachers operate today the exploration of multiple pre existing forms of communicative competence is not enough this volume elaborates theory and illustrates the tools and practices of the linguistic anthropology of education to account for today s research context in which the multiplicity of identity and the multiple ways language can be used to represent it have important ramifications for how learning and social reproduction emerge within educational contexts

approaches to language culture and cognition aims to bring cognitive linguistics and linguistic anthropology closer together calling for further investigations of language and culture from cognitively informed perspectives against the backdrop of the current trend of linguistic anthropology
