excerpt from the modern study of literature an introduction to literary theory and interpretation to write a book it seems to me is sometimes a less difficult task than to hit upon the right title by which the book may be announced the difficulty is aggravated by the author s consciousness that out of the unlimited number of readers who conceivably might be interested in the book the vast majority will never get any farther than the title in the present case what i most desire my book to accomplish is that which is expressed by the sub title i desire it to be an introduction to literary theory and interpretation but if i think so to announce it i am met by the reflection that in the present generation of readers only a very small number quite a negligible quantity have any interest whatever in literary theory nor do they think of literature in general as a thing to which interpretation applies there is perhaps more of appeal in the suggestion of a wide disparity between the traditional study of literature and the high standard set by other modern studies but if i elect to lay emphasis upon this i am in danger of giving to what i say a polemic color which is the last thing i should desire and if as i have done i seek to unite the two suggestions i forego at once the brevity which is the soul of more things than wit and i place myself in the predicament of those who try to sit upon two stools with a disconcerting prospect of falling between them for a period now of over forty years my life has been wholly occupied with the teaching of literature partly in university classes partly in the attractive sphere of university extension where one encounters students who are both receptive and mature it has always been my ambition to make some contribution toward the shaping of this study of literature which by tradition is so miscellaneous and unorganized about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at [forgottenbooks.com](http://forgottenbooks.com) this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
