the gulf cooperation council gcc made up of saudi arabia bahrain kuwait oman qatar and the united arab emirates uae is one of the most resilient sub regional organizations in the world and the most successful in the arab world it has been the forum through which much security cooperation in this volatile sub region has taken place as well as the main representative for the uae s territorial dispute with iran over the abu musa and tunbs islands the organization aims to enhance defence cooperation between its member states it also has significant potential to foster economic integration and to present an alternative form of leverage over the international oil markets very little is known however about how the organization really works how decisions are actually taken as opposed to how this process is formally articulated in its charter and what the gcc s real impact on member states the gulf and international relations is drawing on cutting edge ir theoretical perspectives as well as unique firsthand access to gcc decision makers matteo legrenzi explains the mechanisms of gulf cooperation and its limitations in the context of economic globalization diplomatic regionalization and the rise of iran combining historical context primary source investigations and theoretical analysis this is a comprehensive guide to the gcc and an indispensable resource for anyone concerned with the gulf and the middle east

increased global interest in the arctic poses challenges to contemporary international relations and many questions surround exactly why and how arctic countries are asserting their influence and claims over their northern reaches and why and how non arctic states are turning their attention to the region despite the inescapable reality in the growth of interest in the arctic relatively little analysis on the international relations aspects of such interest has been done traditionally international relations studies are focused on particular aspects of arctic relations but to date there has been no comprehensive effort to explain the region as a whole literature on arctic politics is mostly dedicated to issues such as development the environment and climate change or indigenous populations international relations traditionally interested in national and international security has been mostly silent in its engagement with arctic politics essential concepts such as security sovereignty institutions and norms are all key aspects of what is transpiring in the arctic and deserve to be explained in order to better comprehend exactly why the arctic is of such interest the sheer number of states and organizations currently involved in arctic international relations make the region a prime case study for scholars policymakers and interested observers in this first

systematic study of arctic international relations robert w murray and anita dey nuttal have brought together a group of the world s leading experts in arctic affairs to demonstrate the multifaceted and essential nature of circumpolar politics this book is core reading for political scientists historians anthropologists geographers and any other observer interested in the politics of the arctic region

the right to individual and collective self defense in international law and politics has always been a controversial issue using the example of how the us employs self defense against iraq this book uncovers new dimensions which lead to innovative and practical strategies and analysis

over the course of the last century scholars have furiously debated four questions concerning the founders and their act of creation were the framers motivated by their economic interests how democratic was the framers constitution should we interpret the founding using philosophical or strictly historical approaches what traditions of political thought were most important to the framers in understanding the founding the crucial questions alan gibson examines the preconceptions that scholars bring to these questions explores the deepest sources of scholars disagreements over them and suggests new and thoughtful lines of interpretation and inquiry building on his previous work interpreting the founding which offers a synoptic overview of the competing perspectives that have informed modern scholarship on the founders

many of the basic issues of political science have been addressed by pluralist theory which focuses on the competing interests of a democratic polity their organization and their influence on policy andrew mcfarland shows that this approach still provides a promising foundation for understanding the american political process

for those who need a rapid yet thorough understanding of the foreign policies of the major powers these volumes which cover the usa soviet union and present day russia china japan and the eu form a comprehensive account of the major debates and developments of the world s major powers

adem area studies u of tsukuba japan shares the perspective of a non american student of international affairs by asking one question why and how do some discourses attain and others are denied a hegemonic status the aesthetic logical or moral quality of a specific issue has little to do with the status it attains he finds and he begins formulation of hypotheses on what is crucial annotation 2004 book news inc portland or booknews com
