set against the backdrop of twentieth century America against the social fabric of segregation and the broad canvas of foreign war Benjamin O. Davis Jr. American tells a compelling story of personal achievement against formidable odds born into an era when potential was measured according to race Davis was determined to be judged by his character and deeds to succeed as an American and not to fail because of color with twelve million citizens the black population of the United States pulling for him Davis entered West Point in 1932 resolved to become an officer even though official military directives stated that blacks were decidedly inferior lacking in courage superstitious and dominated by moral and character weaknesses silenced by his peers for four years spoken to only in the line of duty David did not falter he graduated 35th in a class of 276 and requested assignment to the Army Air Corps then closed to blacks he went on to lead the 99th Pursuit Squadron and the 332nd Fighter Group units known today as the Tuskegee Army Airfield into air combat over North Africa and Italy during World War II his performance and that of his men enabled the Air Force to integrate years before civilian society confronted segregation thereafter in a distinguished career in the Far East Europe and the United States Davis commanded both black and white units Davis's story is interwoven with often painful accounts of the discrimination he and his wife Agatha endured as a fact of American military and civilian life traveling across the country unable to find food and lodging they were often forced to make their way nonstop once on base they were denied use of clubs and in the early days were never allowed to attend social activities though on base problems were solved by President Truman's integration of the military in 1949 conditions in the civilian community continued eased but not erased by enactment of President Johnson's legislative program in the 1960s overseas however where relations were unfettered by racism the Davises enjoyed numerous friendships within the military and with such foreign dignitaries as President and Madame Chiang Kai-shek Benjamin O. Davis Jr. retired in 1970 as a three star general his autobiography capturing the fortitude and spirit with which he and his wife met the pettiness of segregation bears out Davis's conviction that discrimination both within the military and in American society reflects neither this nation's ideals nor the best use of its human resources

as savior of the union and the great emancipator abraham lincoln has been lauded for his courage wisdom and moral fiber yet frederick douglass s assertion that lincoln was the white man s president has been used by some detractors as proof of his fundamentally racist character viewed objectively lincoln was a white man s president by virtue of his own whiteness and that of the culture that produced him until now however historians have rarely explored just what this means for our understanding of the man and his actions writing at the vanguard of whiteness studies brian dirck considers lincoln as a typical american white man of his time who bore the multiple assumptions prejudices and limitations of his own racial identity he shows us a lincoln less willing or able to transcend those limitations than his more heroic persona might suggest but also contends that lincoln s understanding and approach to racial bigotry was more enlightened than those of most of his white contemporaries blazing a new trail in lincoln studies dirck reveals that lincoln was well aware of and sympathetic to white fears especially that of descending into white trash a notion that gnawed at a man eager to distance himself from his own coarse origins but he also shows that after lincoln crossed the rubicon of black emancipation he continued to grow beyond such cultural constraints as seen in his seven recorded encounters with nonwhites dirck probes more deeply into what white meant in lincoln s time and what it meant to lincoln himself and from this perspective he proposes a new understanding of how lincoln viewed whiteness as a distinct racial category that influenced his policies as dirck ably demonstrates lincoln rose far enough above the confines of his culture to accomplish deeds still worthy of our admiration and he calls for a more critically informed admiration of lincoln that allows us to celebrate his considerable accomplishments while simultaneously recognizing his limitations

when douglass observed that lincoln was the white man s president he may not have intended it as a serious analytical category but as dirck shows perhaps we should do so the better to understand not just the lincoln presidency but the man himself
