have you been in a situation where you spoke to someone and they perceived you as aggressive even when you did not have an ounce of aggression in you have you been in a room where people only wanted to speak to one person and you couldn't figure out why the person received all that attention have you ever had your boss scold you or even fire you from your job after speaking with him briefly and you couldn't point to any careless word you said during the conversation you may or may not have known that the reason behind the unfortunate event but most often than not it is because your communication method was poor or rather your delivery method well if you asked most people have even lost count of the numerous times seemingly innocent conversations landed them in trouble or caused them many losses without proper knowledge of how to communicate you may borrow something from a friend and be dismissed you could have a chance to speak to your boss and end up fired or you could miss the opportunity to gain that client who was interested in your products or services people say that money and sometimes love makes the world go round but in reality there isn't much you could do without proper communication how would people give you what you asked for how would people understand what you need to communicate properly just to get by it is not enough for you to just get by though as people become more knowledgeable they are becoming pickier twenty years ago a customer would stand to be treated and spoken to rudely if only they could access the products or services you are offering however with globalization and more education from various sources people now understand their rights and have more choices in fact a business owner is unlikely to survive in his craft if he cannot treat a customer right because word of his misdemeanor will spread like bush fire this attitude has spread even to other areas of life and people are more impatient with poor treatment if you are rude to your friends or employees you will soon have none around you therefore it pays to be able to communicate with others well not only for your message to be heard but also to ensure that it is conveyed in good faith as such the author has gone out of his way to come up with a comprehensive
