philosophical devices introduces the technical ideas that are taken for granted in contemporary philosophical writing it offers simple explanations and covers a wealth of material that is normally available only to specialists this original distinctive book will appeal to anyone who is curious about the technical infrastructure of philosophy

this uniquely interdisciplinary collection of essays derives in part from a two day international conference held at heriot watt university in november 1999 and conceived as a critical forum for the discussion of the concept of interaction the collection satisfies a continuing need for interdisciplinary and multi disciplinary research in the humanities and stems from an awareness of the growing currency of interactionist theories in several fields and the need to make a critical contribution to such theories and related concepts such as intersubjectivity and dialogism rather than advancing an apologetic view of interaction as something given the contributors carefully consider and challenge commonly held epistemological and theoretical assumptions relating to the interaction concept interaction if it is to be a meaningful concept must be seen in terms of its modes e g linguistic media based units language logic communication objectives understanding consensus stability and fields of operation face to face interaction translation social codification this collection is intended to offer a provisional response to the question posed by one of its contributors what does it mean today that communication as the mechanism of social co ordination has itself become complex it means that erstwhile certainties of meaning transmission stability duality or dichotomy identity and difference can be challenged and theoretically modelled in new contexts interdisciplinarity is one means by which to illuminate this complexity from several sides in the pursuit of theoretical blind spots in the field of critical communication studies the book will be of particular interest to researchers and students in communication theory linguistics translation studies logic social psychology discourse studies european studies philosophy and semiotics

this handbook presents a comprehensive introduction to the core areas of philosophy of education combined with an up to date selection of the central themes it includes 95 newly commissioned articles that focus on and advance key arguments each essay incorporates essential background material serving to clarify the history and logic of the relevant topic examining the status quo of the discipline with respect to the topic and discussing the possible futures of the field the book provides a state of the art overview of philosophy of education covering a range of topics voices from the present and the past deals with 36 major figures that philosophers of education rely on schools of thought addresses 14 stances including eastern indigenous and african philosophies of education as well as religiously inspired philosophies of education such as jewish and islamic revisiting enduring educational debates scrutinizes 25 issues heavily debated in the past and the present for example care and justice democracy and the curriculum new areas and developments addresses 17 emerging issues that have garnered considerable attention like neuroscience videogames and radicalization the collection is relevant for lecturers teaching undergraduate and graduate courses in philosophy of education as well as for colleagues in teacher training moreover it helps junior researchers in philosophy of education to situate the problems they are addressing within the wider field of philosophy of education and offers a valuable update for experienced scholars dealing with issues in the sub discipline combined with different conceptions of the purpose of philosophy it discusses various aspects using diverse perspectives to do so contributing editors section 1 voices from the present and the past nuraan davids section 2 schools of thought christiane thompson and joris vlieghe section 3 revisiting enduring debates ann chinnery naomi hodgson and viktor johansson section 4 new areas and developments kai horsthemke dirk willem postma and claudia ruitenberg

this book examines the concept of quality from a social perspective using the example of public spaces it demonstrates the analytical and practical benefits that can be gained from an experience based approach to defining quality sociology and related social sciences have rarely explored the quality of spaces despite qualities being social products this has led to a clear research gap in understanding spatial quality within social theory addressing this gap this book examines public space quality through a cultural spatial lens accounting for the complexity of polycontexturalization which implies the increasing entanglement of social actions in multiple contexts and spatialities as well as the materiality of spatial arrangements moreover it introduces the sociologically useful distinction between erfahrung reflective experience and erlebnis lived experience into the analysis of spatial quality the book s concept is based on the idea that social experience comprises multiple logics it is shown that the quality of public space is driven by three distinct logics the logic of expression evident in individuals drive for social integration the logic of strategy viewing public space as a

competitive arena and finally the logic of subjectivation which examines how spaces shape subjectivities and are subject to refiguration the book targets both researchers and students in sociology anthropology political science architecture and urban planning it also serves as a practical toolbox for professionals in architecture and planning focused on creating more socially acceptable public spaces

the almanac of architecture and design 2000 contains 13 chapters of vital and timely information about the field including up to the minute information on awards and honors a calendar of competition deadlines and conference dates plus a listing of individuals in the design profession

theses on any subject submitted by the academic libraries in the uk and ireland
