the golden amazon's arch enemy Sefner Quorne discovers that all mental gifts such as memory and creativity are not inherent in human brains and mental make up but are something that is broadcast throughout the universe by a central intelligence and then interpreted individually by the recipient. Quorne invents a device to block such thoughts selectively from reaching the earth thereby reducing the population to imbeciles with the Amazon and Abna also being affected. The ambitious scientist then embarks on the most audacious voyage ever to be undertaken by man when at the surprising suggestion of his wife Viona, daughter of the Amazon, he travels to the very center of the universe in order to seize the secrets to all knowledge from the central intelligence itself. Can Quorne be thwarted before he becomes the most powerful being in the cosmos? Another astounding adventure in the unfolding saga of the golden Amazon.

Randle Manton has brought the earth back from the brink of nuclear disaster, painstakingly rebuilding a nearly destroyed civilization even reaching out to space. But now he's told that the clouds covering the world will soon unleash upon the reeling planet yet another disaster: a great flood that will cover most of the earth's surface. Despite his wealth, despite his great power, Manton knows that he'll only be able to save a fraction of humanity. Can mankind rebuild and survive yet a third time?

The human occupied planets in the solar system, earth and Mars, are suddenly threatened with a space-borne plague that rusts and destroys all metals. If the disease continues unchecked, all of civilization is threatened. Behind this insidious menace is Sefner Quorne, the sinister master scientist of Atlantis. Quorne had earlier enslaved the humans on earth until he was deposed by the golden Amazon and Abna, the real lord of Atlantis. But now, with Abna dead and the Amazon mortally wounded on one of the moons of Jupiter, nothing can halt Quorne's plans until a lone space traveller abruptly intervenes. Viona, a beautiful young woman whose origins are shrouded in mystery, is somehow connected to the mysterious amethyst city of Saturn, a place that cannot possibly exist. Volume four in this exciting continuing saga of earth and space.

Science fiction and fantasy literature: a checklist 1700-1974. Volume one of two contains an author index, title index, series index, awards index, and the Ace and Belmont Doubles index.

when a young scientist discovers how to foreshorten space by using higher dimensions it opens up the possibilities for almost instantaneous interstellar travel initially using unmanned probes the first probe returns with stellar gas samples from a double star system a larger yellow star with a dwarf star companion both samples are isolated from the outside world as a precaution and stored together in a scientific laboratory pending detailed analysis but when the sealed vault is opened something uncanny happens the container that contains gas from the dwarf star has burst apart a viscid crawling substance is flowing out of the smashed remains appearing to multiply on itself as it moves in some blind terrifying way it seems alive and it s spreading a classic sf tale drawn from the pages of the 1950s paperback pulps

the cosmic crusaders are plunged into a strange new space where all the probabilities of electronic law are strangely altered a complete and stunning inversion of all so called natural laws they discover the mysterious silver planet of tuca and deep below its surface they find an enigmatic machine the legacy of a vanished race masters of science they had overreached themselves by constructing a strange machine that could alter the very laws of nature but the machine had destroyed its creators and blasted a neighboring planet into a cosmic cinder and unless the cosmic crusaders can stop it it may destroy the entire universe another epic space adventure of the golden amazon john russell fearn s most famous and enduring character
