now available in a substantially revised 3rd edition covering the changes
of the seventeenth party congress and eleventh national people s
congress and other recent developments this major text by a leading
academic authority provides a thorough introduction to all aspects of
politics and governance in post mao china

this new and up to date textbook has been specially written for university
students taking courses dealing with the politics and society of the south
east asian region covering brunei cambodia indonesia laos malaysia
myanmar philippines singapore thailand and vietnam each chapter begins

with a description of the country's history, society, geography, and economy, plus key statistics. The subsequent politics sections examine the formal organization of government as provided for constitutionally, followed by a description and analysis of the major political institutions: parliament, the executive, the civilian and military bureaucracies, the judiciary, and more widely, ideology, civil society, political parties, elections, civil society, and human rights. Finally, each chapter looks at major political issues, focussing on who rules, who benefits, legitimacy, and the nature of governance. Generally, student useful features include the comprehensive socio-economic and historical context provided by each country study, basic statistical data, and a further reading list. The originality and usefulness of this volume lies in its exceptionally detailed information and analysis of each country's political system, as well as its up-to-date examination of the key domestic issues that dominate the political agenda in this fast-changing region.

The words government and politicians are used interchangeably most of the time today. This is because for most people today, government means politics, and politics means government. Most people just cannot tell the difference between the two, but are politics and government the same thing? What are all those isms by which politicians justify their powers? How do politicians justify their actions? And who owns politicians? What is democracy, and is the world government an ideal or a painful necessity? Can people trust politicians, and can they trust government? This book asks and answers these and other questions relating to government and politics.

This book, originally published in 1959, makes explicit the social principles which underlie the procedures and political practice of the modern democratic state. The authors take the view that in the modern welfare state there are problems connected with the nature of law, with concepts like rights, justice, equality, property, punishment, responsibility, and liberty, and which modern philosophical techniques can illuminate.

The advent of social media has had varying effects across fields, industries, and governments, as more individuals rely on this technology. Its uses continue to develop and expand; social media has forever changed the way in which politics are discussed, social movements are formed, and how governments interact with the public. To fully understand the future of social media, further study is required. The research anthology on social media's influence on government, politics, and social movements investigates how social media is used within governments, as well as the history behind the technology. The book also examines best practices, tactics, and challenges associated with utilizing social media platforms for social movements, covering key topics such as communication, interactive

technology and social change this major reference work is ideal for government officials industry professionals policymakers administrators business owners managers researchers academicians scholars practitioners instructors and students

historical study of the legal structure of government and political institutions in china during the period from 1912 to 1949 includes general information on the country and the texts of the constitutions of 1923 and 1946 and covers the political leadership of the kuomintang political theory political problems the administration of justice public administration the role of political parties incl the communist party etc bibliography pp 483 to 510

this book aims to seek for the truth which connects public value and social development as basis to build a harmony community for individuals as well as society the book tries to bridge science technology economics politics history ethics and environment under the concept of public values and reveals the essentials of public policy for individual and social development the potential audience of the book are officials and policy makers in the public sectors as well as managers in the private sectors

during the last decade alberta municipalities have endured hardships they have not faced since the great depression changes in the province s political structures appear to have been made primarily to transfer a greater share of the costs of local government to the municipalities yet surprisingly few municipal politicians have resisted the province s financial policies

a fresh accessible perspective on the fundamentals

this major new textook provides a broad ranging and systematic introduction to the contemporary institutions and process of government in the united states set in a clear historical context

a generation ago scholars saw interest groups as the single most important element in the american political system today political scientists are more likely to see groups as a marginal influence compared to institutions such as congress the presidency and the judiciary frank baumgartner and beth leech show that scholars have veered from one extreme to another not because of changes in the political system but because of changes in political science they review hundreds of books and articles about interest groups from the 1940s to today examine the methodological and conceptual problems that have beset the field and suggest research strategies to return interest group studies to a position of greater relevance the authors begin by explaining how the group approach to politics became dominant forty years ago in reaction to the constitutional legal approach that preceded it they show how it fell into decline in the 1970s as scholars ignored the impact of groups on government to focus on more quantifiable but narrower subjects such as collective action dilemmas and the dynamics of recruitment as a result despite intense research activity we still know very little about how groups influence day to day governing baumgartner and leech argue that scholars need to develop a more coherent set of research questions focus on large scale studies and pay more attention to the context of group behavior their book will give new impetus and direction to a field that has been in the academic wilderness too long

first published in 1967 politics and government at home and abroad presents william a robson s penetrating observations on the basic requirements of democratic politics and government divided into two parts the essays cover a wide field part i deals with the fundamental questions of political thought such as relation between freedom equality

and socialism education and democracy and the basic issues of practical government like reform of the british government and the future of public administration part ii of the book brings travelogue essays with author s reflections on india america and russia this book is an essential read for students and researchers of political science and public administration
