research team's five years of work as well as Nelson's thorough re-examination of the original evidence assembled by federal investigators. This page-turning and definitive work weaves archival research, interviews, and personal experiences from both sides into a blow-by-blow narrative of destruction liberally sprinkled with individual heroism, bizarre escapes, and equally bizarre tragedies. Kirkus Reviews: Nelson delivers all the terror, chaos, violence, tragedy, and heroism of the attack in stunning detail and offers surprising conclusions about the tragedy's unforeseen and resonant consequences that linger even today.

The events surrounding the attack on Pearl Harbor did not look the same to everyone involved. Understanding depends on perspective. In the Viewpoints and Perspectives series, more advanced readers will come to understand different viewpoints by learning the context, significance, and details of the attack through the eyes of three different people. While engaging with text through questions, sparking critical thinking, books include a timeline, glossary, and index.

Illustrated with over 80 photos of the ships, commanders, aircraft, and locations involved in the attack on Pearl Harbor, this handbook on Pearl Harbor allows individuals and organizations to study this battle not only in the context of the Japanese attack but more importantly in the context of issues that are relevant to the current global war on terror. In addition to analyzing the actual attack, it also enables users of this work to examine the problems associated with conducting joint planning and operations between the US Army, the Army Air Forces, and the US Navy. It also provides insights into the problems of a homeland security environment in which intelligence operatives from a foreign nation and potentially even recent immigrants from that foreign nation who are now US citizens can operate with little hindrance in a free and open democratic society. Additionally, this study provides an opportunity to look at how military commanders and planners prepared for their wartime mission with inadequate resources and equipment.
