propuestas ludicas para desarrollar las diferentes inteligencias

howard gardner que ya revolucionó nuestra concepción de la mente con su teoría de las inteligencias múltiples nos ofrece ahora una obra trascendental sobre los objetivos de la educación en este libro gardner reúne los discursos de sus obras anteriores en una nueva e importante síntesis destinada a padres educadores e interesados en general el texto va más allá de cuestiones locales y explora las cualidades que debe poseer toda persona formada en cualquier especialidad así como los modos de transmitir esa formación a sus alumnos gardner argumenta con entusiasmo que toda enseñanza debería reforzar en los estudiantes la comprensión de la verdad y la falsedad la belleza y la fealdad la bondad y la maldad tal como las definen sus propias culturas en la educación de la mente y el conocimiento de las disciplinas gardner explora la teoría de la evolución la música de mozart y las consecuencias del holocausto como ejemplos ilustrativos de la naturaleza de la verdad la belleza y la moralidad su objetivo final es una ciudadanía educada que comprenda el mundo físico el mundo biológico y el mundo social y que sepa aplicar esta comprensión a su mundo personal social y cultural lejos de la mentalidad basada en los contenidos y la experimentación que se ha apoderado tanto de los ciudadanos como de los legisladores la educación que propone gardner ayudará a las generaciones más jóvenes a aceptar los desafíos del futuro conservando al mismo tiempo las metas tradicionales de una educación humana

una revolucionaria guía para dominar las entrevistas de trabajo donde encontrarás consejos y técnicas comprobadas que te ayudarán triunfar en tu búsqueda laboral al descubrir tu estilo personal las recomendaciones tradicionales sobre las entrevistas de

trabajo no funcionan eso aprendió anna papalia durante años de experiencia como profesional en el área de recursos humanos consultora para las compañías de fortune 500 y profesora en la fox school of business ninguna de estas herramientas funciona por una sencilla razón no abordan lo que en realidad hace que una entrevista sea excelente el autoconocimiento en esencia una entrevista es un conjunto de preguntas sobre ti mismo si no te conoces no te irá bien decidida a hacer del proceso algo mejor más inclusivo y menos oscuro anna pasó años investigando cómo se llevan a cabo las entrevistas de trabajo y descubrió una nueva ciencia de la entrevista al hallar que existen cuatro estilos principales que demuestran las personas en este tipo de diálogo puedes ser un carismático un desafiante un examinador o un armonizador tu estilo influye en tu perspectiva sobre las entrevistas y en última instancia en cómo te desenvuelves en ellas en este libro anna te enseña a identificar tu estilo individual y el de la persona con quien te entrevistas y ofrece consejos prácticos sobre cómo utilizar este conocimiento para que tu próxima entrevista sea exitosa trascendiendo las recomendaciones típicas que no son útiles en el mundo real como memorizar respuestas escritas o guías rígidas este libro es un acercamiento centrado en el autoconocimiento y en cómo desarrollarlo para ayudarnos a manejar nuestro propio estilo de entrevista se trata del poder que conlleva conocerte a ti mismo y de cómo ese conocimiento puede conducirte hacia una carrera y una vida más exitosas a groundbreaking guide to mastering the job interview offering proven advice and techniques to discover your unique interview style that is key to interviewing better for those on either side of the table conventional interviewing advice doesn't work that's what anna papalia learned through years of experience as an hr professional consultant for fortune 500 companies and teacher at the fox school of business none of the existing tools work for one simple reason they don't get to the heart of what actually makes a great interview self awareness at its core an interview is a set of questions about you if you don't know yourself you won't do well determined to make the process better more inclusive and less obscure anna spent years researching how people interview and uncovered a new science to interviewing rooted in the finding that there are four main styles people exhibit in an interview you can be a charmer a challenger an examiner or a harmonizer your style influences how you view and approach interviews and ultimately how you perform in them in interviewology anna teaches you how to identify your individual style and that of who you are interviewing with and offers pragmatic tips for using this knowledge to nail your next interview going beyond generic advice that isn't useful in the real world such as memorizing rote answers or strict guidelines interviewology is a revolutionary approach that focuses on self awareness and how to develop it to help everyone master their own unique interview style it's about the power of knowing yourself and how that insight can lead to a more successful career and life

el teórico de las inteligencias múltiples va más allá y explora el espacio de las diferentes capacidades cognitivas vivimos en una época de cambios descomunales caracterizados por la aceleración de la globalización la acumulación de cantidades ingentes de información y la creciente hegemonía de la ciencia y la tecnología estos cambios requieren nuevas formas de aprendizaje y de pensamiento tanto en el ámbito académico como en el mundo de la economía y en el profesional en las cinco mentes del futuro el destacado psicólogo howard gardner define las cinco capacidades cognitivas que en los años venideros van a ser las más solicitadas la mente disciplinar la mente sintetizante la mente creativa la mente respetuosa y la mente ética

designed for students but also for parents and teachers this guide helps develop thinking abilities learning strategies memory and classroom organization of learning resources the exercises included cultivate learning techniques such as classification determining hierarchies and conceptualization basic elements of information retention para los alumnos pero también para maestros y padres de familia esta obra está orientada a

desarrollar las habilidades de pensamiento estrategias de aprendizaje y administración de los recursos para el aprendizaje los ejercicios cultivan habilidades intelectuales como la clasificación la jerarquización y la conceptualización elementos básicos del proceso de aprendizaje
