The Aqua Group Fitness Instructor Manual was designed to prepare fitness professionals to work in group and class settings and is the main study for the Aqua Group Fitness Instructor developed and written by 17 of the industry's top experts. The Aqua Group Fitness Instructor Manual is an excellent resource addressing the core competencies you need regardless of the types of classes you teach. It provides overviews of nine of the most popular modalities including aquatic exercise, fitness yoga, and Pilates mat training. Topics range from exercise physiology, anatomy, kinesiology, and health screening to adherence, injury prevention, and legal and professional responsibilities. Special attention has been given to fitness for special populations including pregnant women and those with significant weight challenges. Companion DVD included.

Based on industry standards and guidelines, this text highlights a variety of group exercise formats through training principles, correction, and progression techniques and safety to enhance the skills of group exercise leaders.

Formats, modalities, and trends in group exercise are constantly evolving. Methods of group exercise instruction, third edition with online video, explores the most common group exercise modalities, enhancing readers' marketability by giving them the skills to lead dynamic, safe, and effective classes. This text highlights the commonalities of a variety of group exercise formats through training principles, correction, and progression techniques and safety tips to enhance the skills of both group exercise leaders and program directors. Methods of group exercise instruction, third edition, moves from theory to practice in a logical progression rather than simply providing routines. This book helps instructors develop the core skills needed for creating routines, use proper cueing, and adapt their teaching to new modalities. Teaching techniques convey appropriate training for each muscle group and methods for warm-up, cardiorespiratory training, muscular conditioning, neuromotor training, and flexibility. In addition, starter routines, modification strategies, and instructor assessment criteria are presented for seven class formats: kickboxing, step training, stationary indoor cycling, sport conditioning, and boot camp. Water exercise, yoga, and mat-based Pilates are also covered. The text also touches on alternative modalities including dance-based classes, fusion, and mind-body training. Thoroughly revised and reorganized based on industry standards, the third edition of Methods of Group Exercise Instruction offers expanded content to help readers become better instructors. Updates to the third edition include the following: online video totaling over 100 minutes demonstrates key content in the text; new chapters cover social aspects of group exercise, coaching-based instructional models, and neuromotor and functional training; callout boxes highlight important topics; research findings, technique, and safety checks, and practice drills which facilitate quick learning; short assignments at the close of each chapter encourage readers to look beyond the text to gain practical experience; evaluation forms and evaluation key points allow instructors to gauge their teaching success and adapt the key criteria of a successful class to each exercise modality. The three-part structure of this book is retained from the previous edition, but the content is reorganized to better reflect industry standards and guidelines. Part I provides a general overview of group exercise, the evolution and advantages of group exercise, the strategies for creating group cohesion in a class, the core concepts in class design, and the use of music, choreography, and cueing methods in designing and leading a class. Part II offers guidelines for leading the four major segments of a group exercise class: warm-up, cardiorespiratory training, muscular conditioning, and flexibility training, and includes a new chapter on neuromotor and functional training. These basic concepts pertain to all modalities covered in Part III, which focuses on practical teaching skills. Basic moves, choreography, and training systems are covered for each type of class. Sample routines and class formats for each modality offer a confident starting point for novice instructors and fresh

material for veterans the final chapter discusses customized or hybrid classes such as lifestyle physical activity based classes equipment based cardio classes and mind and body classes when used as a course text methods of group exercise instruction third edition includes instructor ancillaries which offer suggestions for effective use of the book and online video lesson plan outlines a sample week by week syllabus lab activities and test questions the third edition also features a newly added image bank containing all the figures and photos from the text to use in presentations
