employing an engaging question and answer format the arab uprisings explores the revolutionary protests that have rocked the arab world since late 2010 in this updated and revised second edition james l gelvin explores the varied paths taken by the uprisings and assesses their historical and global significance gelvin begins with an

overview what were the conditions in the arab world that led to the uprisings where did the demands for human and democratic rights and social and economic justice come from before turning to specific countries in the region he examines how the long history of state building in tunisia and egypt ultimately determined the paths taken by uprisings there he explains why the weakness of state institutions in libya and yemen led to violence and chaos he explores the commonalities of the coup proofed states bahrain and syria and the tragic course of their uprisings in the final chapter he discusses the implications of the uprisings what do they mean for the united states al qaeda and the balance of power in the region what do they say about the viability of the arab state system what effects have they had on the israel palestine conflict what conclusions might we draw from the uprisings so far when will we know their historical meaning what everyone needs to know is a registered trademark of oxford university press

originally published in england in 1938 the same year as his magnum opus the black jacobins and expanded in 1969 this work remains the classic account of global black resistance robin d g kelley s substantial introduction contextualizes the work in the history and ferment of the times and explores its ongoing relevance today a history of pan african revolt is one of those rare books that continues to strike a chord of urgency even half a century after it was first published time and time again its lessons have proven to be valuable and relevant for understanding liberation movements in africa and the diaspora each generation who has had the opportunity to read this small book finds new insights new lessons new visions for their own age no piece of literature can substitute for a crystal ball and only religious fundamentalists believe that a book can provide comprehensive answers to all questions but if nothing else a history of pan african revolt leaves us with two incontrovertible facts first as long as black people are denied freedom humanity and a decent standard of living they will continue to revolt second unless these revolts involve the ordinary masses and take place on their own terms they have no hope of succeeding robin d g kelley from the introduction i wish my readers to understand the history of pan african revolt they fought they suffered they are still fighting once we understand that we can tackle our problems with the necessary mental equilibrium c l r james

the thirteenth century monarch alfonso the learned of castile and his contemporary rival james the conqueror of aragon catalonia are key figures who made enduring contributions to western civilization although neither is well known to american students this book explores the contrasts and convergences not only of the kings but of the scholarly cultural with the military commercial society originally published in 1985 the princeton legacy library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of princeton university press these editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions the goal of the princeton legacy library is to vastly increase access to the rich scholarly heritage

found in the thousands of books published by Princeton University Press since its founding in 1905

C. L. R. James (1901–1989) one of the most important intellectuals of the twentieth century expressed his postcolonial and socialist philosophies in fiction, speeches, essays, and book-length scholarly discourses. However, the majority of academic attention given to James keeps the diverse mediums of James's writing separate, focusing on his work as a political theorist and subordinating his role as a fiction writer. This book, however, seeks to change such an approach to studying James, defining creolization as a process by which European, African, Amerindian, Asian, and American cultures are amalgamated to form new hybrid identities and cultures. Nicole King uses this process as a means to understanding James's work and life. She argues that throughout his career, whether writing a short story or a political history, James articulated his attempt to produce revolutionary radical discourses with a consistent methodology. James, a Trinidad-born scholar who migrated to England and then to the United States and who described himself both as a Black radical and a Victorian intellectual, serves as a definitive model of creolization. King argues that James's writings also fit the model of creolization for each is influenced by diverse types of discourses. James rarely wrote from within the confines of a single discipline; instead, choosing to make the layers of history, literature, philosophy, and political theory coalesce in order to make his point. As his West Indian and Western European influences converge in his work and life, he creates texts that are difficult to confine to a specific category or discipline. No matter which writerly medium he uses, James was preoccupied with how to represent the individual personality and at the same time represent the community. The C. L. R. James that emerges from King's study is a man made more compelling and more human because of his complicated multilayered and sometimes contradictory allegiances.

Praise for the author: Gibson's well-written and well-documented account of James and the bishops will surely become the new standard authority on these implausible revolutionaries for many decades. Barbara Brandon Schnorrenberg, *Anglican and Episcopal History*. In 1660 England emerged from the devastation of the civil wars and restored the king, Charles II, to the throne. Over the next 190 years Britain would establish itself as the leading nation in the world, the centre of a burgeoning empire at the forefront of the enlightenment and the driving force behind the industrial revolution. However, radical change also brought with it anxiety and violence. America was lost in the war of independence and calls for revolution at home were never far from the surface of everyday life. In this vivid and convincing overview of the era in which Britain transformed the world and was itself remade, leading historian of the period William Gibson also looks at the impact of this revolutionary change on the ordinary citizens of Britain. This is the third book in this wonderfully concise four-volume brief history of Britain, which brings together leading historians to tell the story of Britain from the Norman conquest of 1066 right up to the present day, combining the latest research with accessible and entertaining storytelling. It is the ideal

introduction to british history for students and general readers

available in book form for the first time the fbi's secret dossier on the legendary and controversial writer decades before black lives matter returned james baldwin to prominence j edgar hoover's fbi considered the harlem born author the most powerful broker between black art and black power baldwin's 1 884 page fbi file covering the period from 1958 to 1974 was the largest compiled on any african american artist of the civil rights era this collection of once secret documents never before published in book form captures the fbi's anxious tracking of baldwin's writings phone conversations and sexual habits and baldwin's defiant efforts to spy back at hoover and his g men james baldwin the fbi file reproduces over one hundred original fbi records selected by the noted literary historian whose award winning book *f b eyes* how j edgar hoover's ghostreaders framed african american literature brought renewed attention to bureau surveillance william j maxwell also provides an introduction exploring baldwin's enduring relevance in the time of black lives matter along with running commentaries that orient the reader and offer historical context making this book a revealing look at a crucial slice of the american past and present

king james ii was the catholic king of a protestant nation but he had inherited a secure crown and was able to put down the rebellion by his nephew the duke of monmouth in just over three years james had been deserted by those he loved and trusted and had to flee to france in exile his throne was seized by his son in law and daughter and when they died his younger daughter succeeded for james it was a personal tragedy of king lear proportions for most of his subjects it was a glorious revolution that saved his kingdoms from popery over the next hundred years james or his descendants would attempt to win back the crown with french support and conspiring with british jacobites and tories in espionage in the divided stuart dynasty julian whitehead charts the inner workings of government intelligence during this unstable period where it was by no means a forgone conclusion that james or his heirs would never regain the throne it throws light on the murky world of spies and double agents at a time of intensive intrigue and betrayal with many politicians and peers trying to keep a foot in both camps it was especially important in such circumstances for a monarch to receive good intelligence about the many intrigues but could those providing the intelligence be trusted

david hume's *the history of england from charles ii to james ii* presents a meticulous examination of a pivotal period in british history marked by political turbulence and the oscillation between monarchy and parliamentary power hume employs a narrative style characterized by a blend of empirical inquiry and philosophical reflections offering a comprehensive analysis of the events figures and ideologies that shaped england from the restoration of 1660 to the glorious revolution of 1688 his investigation delves into the complex interplay between religion governance and societal change providing readers with an informed context of the era's historical significance and implications as a scottish philosopher and historian hume was deeply

engaged with the intellectual debates of his time including the enlightenment's emphasis on reason and individualism his diverse background in philosophy and economics informed his historical writing allowing him to engage critically with earlier sources while providing a fresh perspective on english history hume's ability to blend personal insight with rigorous scholarship reflects his pursuit of understanding how historical forces shape human behavior this indispensable work is highly recommended for those captivated by british history political philosophy or the enlightenment's impact on historiography hume's compelling narrative not only informs but also invites critical reflection on the nature of history itself making it a valuable addition to both academic and personal libraries in this enriched edition we have carefully created added value for your reading experience a succinct introduction situates the work's timeless appeal and themes the synopsis outlines the central plot highlighting key developments without spoiling critical twists a detailed historical context immerses you in the era's events and influences that shaped the writing an author biography reveals milestones in the author's life illuminating the personal insights behind the text a thorough analysis dissects symbols motifs and character arcs to unearth underlying meanings reflection questions prompt you to engage personally with the work's messages connecting them to modern life hand-picked memorable quotes shine a spotlight on moments of literary brilliance interactive footnotes clarify unusual references historical allusions and archaic phrases for an effortless more informed read

following a lifetime observing australia and its people tom keneally turns inwards to reflect on what has been important to him when i was born in 1935 i grew up despite the depression and world war ii with a primitive sense of being fortunate the utopian strain was very strong if we weren't to be a better society if we were simply serfs designed to support a system of privilege what was the bloody point thomas keneally has been observing reflecting on and writing about australia and the human condition for well over fifty years in this deeply personal passionately drawn and richly tuned collection he draws on a lifetime of engagement with the great issues of our recent history and his own moments of discovery and understanding he writes with unbounded joy of being a grandparent and with intimacy and insight about the prospect of death and the meaning of faith he is outraged about the treatment of indigenous australians and refugees and argues fiercely against market economics and the cowardice of climate change deniers and he introduces us to some of the people both great and small who have dappled his life beautifully written erudite and at times slyly funny a bloody good rant is an invitation to share the deep humanity of a truly great australian praise for australians no doubt about it australians is a corker cassandra pybus weekend australian the story of australia and the australians could be in no better hands than keneally's west australian keneally evokes these distant lives with concrete detail and vivid sympathy his people inhabit the same world we do we meet them without the hesitation of reaching across voids of space and time sydney morning herald australians will appeal to the general reader and the avid

historian alike and this is only the first volume this reader can't wait for the second bookseller publisher

gabriel's rebellion the virginia slave conspiracies of 1800 and 1802

a graphic novel adaptation of robert louis stevenson's classic story
