achievements in creating a new science cosmopsychobiology in this booklet you will find concrete bio informative techniques for the improvement of one's health in oncological diseases but let us first expand our knowledge of this little known field of science how do we help a person in the concrete work of our own practice through consciousness we do not touch anyone we do not give any pills or shots but the person still becomes healthy a thought alone can save someone's life

whatever we might be doing and wherever we might be going we were moving toward one goal to one's inner self to remembering oneself people who have lost the memory of their past and their future are akin to children who are ready day after day without ever tiring of it to ride on their favorite carousel something always changes around us one day the sun is out the next it rains the leaves appear on the trees and then fall off first one set of people come along to see how these carefree folks who behave like children whirl on the carousel and then others come to watch we turn around a closed circle squealing with delight at the speed forgetting that at some point we were truly able to fly and that our exaggerated excitement is nothing but a vague memory of who we once were

in ancient times it was assumed that the world stands on three elephants or three columns according to the jewish kabbalah you can say that the world stands on whales elephants or pillars the essence will not change anyway it isn't about animals but about the right and left hemispheres of the brain the spinal cord and whether they are capable of harmonious functioning on the basis of consciousness meaning divine consciousness of course the left hemisphere manifests its function of logic through the scientific worldview the right hemisphere displays its function through an intuitive perception of truth and through religious perception of the world at first glance they appear to be irreconcilable opposites but if you look closely you will see that the nonsense of atheistic views and the shocking demands for sacrifice of the mind are just two extreme manifestations of the same natural life source and while the left brain hemisphere hits against its own mirror reflection unable to overcome the boundary separating the worlds it will continue to repeat the same old statements about atheism physical foundations of the world speed that cannot exceed the speed of light and space and time as the medium of our existence not even understanding that they are

secondary to the consciousness of the creator who has created all this in the world and in relation to whom they are correlated as consequence with cause

man maintains the homeostasis of the universe adjustment of reality takes place through his consciousness and man's every act and his every action is reflected upon the global levels of being where planets stars and galaxies perform the role of atoms and cells the universe is the body of man's own existence on the global scale if people understand and accept this they become immortal
