the encyclopedia provides a detailed and comprehensive account of the subject known as public choice however the title would not convey sufficiently the breadth of the encyclopedia's contents which can be summarized better as the fruitful interchange of economics political science and moral philosophy on the basis of an image of man as a purposive and responsible actor who pursues his own objectives as efficiently as possible this fruitful interchange between the fields outlined above existed during the late eighteenth century during the brief period of the scottish enlightenment when such great scholars as david hume

adam ferguson and adam smith contributed to all these fields and more however as intellectual specialization gradually replaced broad based scholarship from the nineteenth century onwards it became increasingly rare to find a scholar making major contributions to more than one once alfred marshall defined economics in neoclassical terms as a narrow positive discipline the link between economics political science and moral philosophy was all but severed and economists redefined their role into that of the humble dentist providing technical economic information as inputs to improve the performance of impartial benevolent and omniscient governments in their attempts to promote the public interest this indeed was the dominant view within an economics profession that had become besotted by the economics of john maynard keynes and paul samuelson immediately following the end of the second world war

public choice is the study of behavior at the intersection of economics and political science since the pioneering work of duncan black in the 1940s public choice has developed a rich literature drawing from such related perspectives as history philosophy law and sociology to analyze political decision making by citizen voters elected officials bureaucratic administrators lobbyists and other rational actors in social and economic context with an emphasis on identifying differences between individual goals and collective outcomes constitutional political economy provides important insights into the relationship between effective constitutions and the behavior of ordinary political markets in readings in public choice and constitutional political economy charles rowley and friedrich schneider have assembled an international array of leading authors to present a comprehensive and accessible overview of the field and its applications covering a wide array of topics including regulation and antitrust taxation trade liberalization political corruption interest group behavior dictatorship and environmental issues and featuring biographies of the founding fathers of the field this volume will be essential reading for scholars and students policymakers economists sociologists and non specialist readers interested in the dynamics of political economy

a spirited argument disproving the value of dictatorships by using mussolini hitler and stalin as examples of the fallacy the question is presented with particular reference to the united states

examines impact of political regimes on economic development between 1950 and 1990

this volume focuses on democracy in latin america and both assesses the state of current knowledge on the topic and identifies new research frontiers in the study of latin american politics it provides an overview of research agendas and strategies used in the literature over the past four decades it tackles a series of central questions what is democracy is democracy

an absolute value are current conceptualizations of democracy adequate how and why does democracy work or fail in latin america and spells out the implications of answers to these questions for current research agendas it distinguishes between qualitative and quantitative approaches to the conceptualization and measurement of democracy and presents a dataset on political regimes and democracy that illustrates how the differences between these two standard approaches might be overcome finally it evaluates the strengths and weaknesses of conventional methods used to generate and test explanations of the causes and consequences of democracy and proposes alternative ways to advance ongoing substantive debates given the current state of theory and data the contributors are scholars from the united states and latin america who are experts on latin america and who have established reputations as theorists and methodologists the volume will be of interest to readers seeking to understand debates about democracy in developing societies and to grasp the concepts theories and methods that are currently being developed to study latin american politics

the oxford handbooks of political science is a ten volume set of reference books offering authoritative and engaging critical overviews of the state of political science each volume focuses on a particular part of the discipline with volumes on public policy political theory political economy contextual political analysis comparative politics international relations law and politics political behavior political institutions and political methodology the project as a whole is under the general editorship of robert e goodin with each volume being edited by a distinguished international group of specialists in their respective fields the books set out not just to report on the discipline but to shape it the series will be an indispensable point of reference for anyone working in political science and adjacent disciplines the oxford handbook of comparative politics offers a critical survey of the field of empirical political science through the collection of a set of chapters written by 47 top scholars in the discipline of comparative politics part i includes chapters surveying the key research methodologies employed in comparative politics the comparative method the use of history the practice and status of case study research the contributions of field research and assessing the possibility of constructing a science of comparative politics parts ii to iv examine the foundations of political order the origins of states and the extent to which they relate to war and to economic development the sources of compliance or political obligation among citizens democratic transitions the role of civic culture authoritarianism revolutions civil wars and contentious politics parts v and vi explore the mobilization representation and coordination of political demands part v considers why parties emerge the forms they take and the ways in which voters choose parties it then includes chapters on collective action social movements and political participation part vi opens up with essays on the mechanisms through which political demands are aggregated and coordinated this sets the agenda to the systematic exploration of the workings and effects of particular institutions electoral systems federalism legislative executive relationships the judiciary and bureaucracy finally part vii is organized

around the burgeoning literature on macropolitical economy of the last two decades

overcoming dictatorships explores art produced in response to the collapse of political authoritarian systems in 1989 particularly those of the soviet bloc a case in point is the visual work and discussions of ten artists who have been selected and commissioned by overcoming dictatorships a 2006/09 project generously funded by the european union eu it aims to create a dialogue on post dictatorial experiences among participants from countries designated as east and west europe their works represent attempts to overcome collective identity formations of the past i.e. the soviet bloc national socialism and fascism critically engage with the fear of new dictatorships including consumerism globalization and mass media and question western political and social economic uniformities including the eu hence overcoming dictatorships challenges compartmentalized thinking and thus attempts to overcome authoritarianism it is not the intention to add another pillar to a proclaimed european cultural heritage but rather to contribute to bridging the east and the west exposing the concepts of east and west europe as in transition which as dominant cultural reference points for the contemporary visual may also be on the way out being replaced by an endless variety of issues themes and positions book jacket
