seeing through religion is a cutting edge textbook designed to help students in their study and research of the world's religious traditions providing the tools to learn this valuable subject theoretically mcgovern argues that religion isn't a thing out there in the world it's the glasses on your face through which you see the world shaped by western history and in particular christianity by exploring the major religious traditions and comparing stereotypes about them to reality this textbook establishes how the lens of religion systematically distorts our perception of the world topics covered include what is religion colonialism and the two faces of orientalism islam does fear imply difference buddhism a philosophy or a religion hinduism a polytheistic or a monotheistic religion chinese religion what is it and where can we find it indian religions how can one religion include another tibetan buddhism is it still buddhism judaism a religion or an ethnicity indigenous traditions what gets counted as a religion secularism can we put religion in a box how is the way we think about religion influenced by the theology of martin luther how does the christian paradigm of religion distort our perception of christianity itself this textbook not only provides a survey of important religious traditions but also guides the reader on how to study religion in a methodologically sophisticated way this innovative volume is essential reading for those who want a contemporary and engaging approach to the study of world religions

nowadays the religion of islam which is still relatively unknown in the west is forcefully brought to the public's attention by the acts and threats of the islamic terrorists as a result the question is repeatedly asked what kind of religion is this the aim of this book is to argue that today traditional christianity has nothing to fear from traditional islam in spite of appearances the two ancient religions are really allies they have common enemies and they are united in their opposition to all kinds of modern errors and immoralities including materialism and secularism consequently a true notion of islam and indeed of every complete and uncorrupted religion is what the present book taken in its entirety is all about in surveying islam stoddart provides a wealth of relevant background information and an illuminating treatise on traditional art highlighting the often neglected role of art and beauty in spirituality the text is accompanied by a map and seven colour illustrations

even though islam is a major religion with more than one billion followers worldwide and more than six million in the united states alone there's still uncertainty and misunderstanding about its ideas tenets and practice understanding islam and the people who believe in it has become crucially
