polemics and reflections on how to bridge the gap between what architecture actually is and what architects want it to be architecture depends on what on people time politics ethics mess the real world architecture jeremy till argues with conviction in this engaging sometimes pugnacious book cannot help itself it is dependent for its very existence on things outside itself despite the claims of autonomy purity and control that architects like to make about their practice architecture is buffeted by uncertainty and contingency circumstances invariably intervene to upset the architect's best

laid plans at every stage in the process from design through construction to occupancy architects however tend to deny this fearing contingency and preferring to pursue perfection with architecture depends architect and critic jeremy till offers a proposal for rescuing architects from themselves a way to bridge the gap between what architecture actually is and what architects want it to be mixing anecdote design social theory and personal experience till s writing is always accessible moving freely between high and low registers much like his suggestions for architecture itself

modern architecture is a story of movements styles and genres but what of the work that remains defiantly unique refusing to submit to a label or genre this book looks at the emerging trend of architecture that favours substance over style combining functional design and sustainable processes with a straightforward honest aesthetic

at the core of this encyclopedia are approximately 700 original signed articles written and peer reviewed by the world s leading experts in their various specialized areas of the cognitive sciences

the past two decades have seen an outpouring of work in legal theory that is self consciously critical of aspects of american law and the institutions of the liberal state in this lively volume eminent scholars in philosophy law and political science respond to this recent scholarship by exploring what constitutes a radical critique of the law examining such theories as critical legal studies feminist theory and theories of difference and critical race theory the authors consider whether the critiques advanced in recent legal theory can truly be called radical and what form a radical critique of american law should take writing at the cutting edge of the critique of critical legal theory they offer insights first on critical legal scholarship then on feminist political and legal theory a third group of contributions questions the radicalness of these approaches in light of their failure to challenge fundamental aspects of liberalism while a final section focuses on current issues of legal reform through critical views on criminal punishment including observations on rape and hate speech each major essay describes the underlying principles in the development of a radical legal theory and addresses unresolved questions relating to it while accompanying commentaries present conflicting views the resulting dialogue explores wide ranging issues like equity value relativism adversarial and empathic legal advocacy communitarianism and the social contract impartiality and contingency natural law and corrective justice a common thread for many of the articles is a focus on the social dimension of society and law which finds the individualism of prevailing liberal theories too limiting radical critiques of the law is particularly unique in presenting critical and feminist approaches in one volume along with skeptical commentary about just how radical some critiques really are proposing alternative critiques that embody considerably greater promise of being truly radical it offers provocative reading for both philosophers and legal scholars by showing that many claims to radicalism are highly problematic at best

the largest work ever published in the social and behavioural sciences it contains 4000 signed articles 15 million words of text 90 000 bibliographic references and 150 biographical entries
