this easy to use reference explores the people and events that shaped russia's military history and impacted europe, asia and the world over the past eight centuries. russia's military history is an often overlooked field yet russia is and has long been an important player in global politics and its military exploits have been central to its role on the world stage. this study of russia's military past provides insights into european and u.s. history including the conduct of the two world wars and the cold war and will help readers better appreciate the current geopolitical situation. this work covers major events and figures in russia's military history from the end of mongol domination in the 14th century to the present day. more than 650 entries by scores of expert contributors detail events, individuals, organizations and ideas that have influenced russia's warfare over 800 years. two alphabetically arranged volumes explore such conflicts as the russo-polish wars, the great northern war, the russo-turkish wars, the napoleonic wars, the crimean war, the russo-japanese war, world war i, world war ii and the cold war, including the soviet invasion of afghanistan. cross references and further readings in each entry serve as jumping off points for further exploration.

following on from his award winning book on the history of ancient persia, kaveh farrokh goes on to examine iran's wartime history from the safavid dynasty of the 16th and 17th century through to the 1979 revolution and beyond. he shows how the early military successes were followed by centuries of defeat as the external influences of nations like russia and britain began to shape the internal history of iran before unravelling the complex, violent 20th century military history of the country which encompasses two world wars, regional movements, foreign intervention, anti-government revolts, conflicts on the soviet border, a revolution and an eight year war with iraq. illustrated with contemporary illustrations and photographs, this book provides an unparalleled investigation into the bloody martial history of iran.

tumuli and megaliths mark the landscape of eurasia and are rich in data, mystery and legends. books about them are often monographic or

have a local range this collection of essays highlights and brings together 74 authors from 16 countries from portugal to japan and indonesia they offer a diversity of regional backgrounds theoretical perspectives and scientific approaches relevant to anyone working in history archaeology anthropology and heritage densely illustrated and written in a way that is understandable to anyone it is easily accessible to students professors researchers and cultural or heritage managers it will also attract anyone interested in past cultures early religions and ancient architecture its content makes it a mandatory book for the central and specialized libraries of any university i d centre museum or visiting centre about this and other related issues
