includes the torture photographs in color and the full texts of the secret  
administration memos on torture and the investigative reports on the abuses at abu  
ghraib in the spring of 2004 graphic photographs of iraqi prisoners being tortured by  
american soldiers in baghdad s abu ghraib prison flashed around the world provoking  
outraged debate did they depict the rogue behavior of a few bad apples or did they in  
fact reveal that the us government had decided to use brutal tactics in the war on  
terror the images are shocking but they do not tell the whole story the abuses at abu  
ghraib were not isolated incidents but the result of a chain of deliberate decisions  
and failures of command to understand how hooded man and leashed man could  
have happened mark danner turns to the documents that are collected for the first  
time in this book these documents include secret government memos some never  
before published that portray a fierce argument within the bush administration over  
whether al qaeda and taliban prisoners were protected by the geneva conventions  
and how far the us could go in interrogating them there are also official reports on

abuses at abu ghraib by the international committee of the red cross by us army investigators and by an independent panel chaired by former defense secretary james r schlesinger in sifting this evidence danner traces the path by which harsh methods of interrogation approved for suspected terrorists in afghanistan and quant namo migrated to iraq as resistance to the us occupation grew and us casualties mounted yet as mark danner writes the real scandal here is political it is not about revelation or disclosure but about the failure once wrongdoing is disclosed of politicians officials the press and ultimately citizens to act for once we know the story the photos and documents tell we are left with the questions they pose for our democratic society does fighting a new kind of war on terror justify torture who will we hold responsible for deciding to pursue such a policy and what will be the moral and political costs to the country

the goal of the project was to provide preliminary insight into the process of tacit knowledge acquisition and to support the development of tools to assess the use of various knowledge acquisition processes in solving practical leadership problems these requirements were met by a reviewing relevant theory and research on tacit knowledge leadership and knowledge acquisition b reporting results of analyses performed on free text responses provided by army officers to tacit knowledge scenarios and c discussing the implications of this research for ongoing efforts to identify and assess the processes associated with tacit knowledge acquisition over the course of the multi year project evidence was discovered that tacit knowledge from the stories and advice leaders shared about their experiences could be used to developed tools for measuring the possession of tacit knowledge and evidence was obtained that tacit knowledge relates to effective leadership relationships were found between rank and tacit knowledge scores on the company and battalion inventories providing support for the relationship between experience and tacit knowledge
