este libro constituye la obra póstuma de colin rowe uno de los historiadores y críticos de arquitectura más destacados de la segunda mitad del siglo xx en él se plasman sus enseñanzas sobre uno de los periodos históricos que siempre le fascinó el cinquecento el siglo xvi italiano el origen de los textos son sus legendarias clases sobre la arquitectura del renacimiento que impartió durante 28 años en la

universidad de cornell de las cuales pronto empezaron a circular apuntes entre los estudiantes esas lecciones se distinguían de las de sus colegas por el énfasis puesto en la perspectiva y la representación de la arquitectura en la pintura y la escultura y también por la preeminencia otorgada al siglo xvi los apuntes de esas clases tomados por su antiguo alumno leon satkowski sirvieron para preparar el contenido de este libro la muerte de rowe en 1999 impidió completar los textos que ambos llevaban preparando desde 1994 tras lo cual se decidió publicar únicamente los capítulos ya terminados estos estudios constituyen un homenaje a los edificios y los artistas por los que rowe sentía un profundo aprecio con ese atractivo estilo que siempre caracterizó sus escritos rowe expone sus análisis en términos tanto históricos como contemporáneos y centra su atención tanto en los principales arquitectos de la época bramante giulio romano o sansovino como en sus mecenas los papas la familia medici o los dux de venecia sin olvidarse de las ciudades que acogieron sus obras roma venecia o mantua para quienes viajen a italia para disfrutar del arte y la arquitectura del siglo xvi esos lugares que cautivaban el corazón de rowe y estimulaban su fértil imaginación este libro será una placentera lectura en la medida en que constituye un valioso compendio de erudición crítica

en este libro publicado por primera vez en 1973 christian norberg schulz describe la historia de la arquitectura occidental como una historia de formas significativas en base a esta perspectiva que remite a la filosofía existencialista y a la fenomenología el autor analiza las principales etapas y los edificios mas importantes en la historia de la arquitectura desde el antiguo egipto hasta nuestros dias las construcciones de los diversos periodos culturales son descritas como una expresion de valores religiosos y filosoficos prevalentes el analisis meticuloso del origen significativo de los ejemplos de cada epoca permite superar una vision puramente estilistica de la historia de la arquitectura y reconciliarla con la propia evolucion de las preocupaciones humanas

this book presents themes related to contemporary architecture as the results of diverse cultural influences and architectural legacies manifested in a rich variety of styles materials and spatial perceptions it consists of 24 chapters written by authors from various continents and contains the result of research highlighting contemporary architecture in relation to multiple aspects that are distinguished by their eclectic nature characterized by the integration of diverse cultural and architectural influences the book examines aspects involving material aspects technologies design history salvage technologies and digitization the aspects covered are always filtered through research which objectively integrates traditional and innovative approaches thus the focus is to explore the contemporary lexicon not only in the field of architecture and engineering but in all those areas where this theme can be read with a meaningful vision contemporary architecture is constantly evolving reflecting the changing needs of society and anticipating the challenges of the future

originally published in 1841 the history of the christian religion and church is the most famous work written by german church historian dr augustus neander 1789 1850 neander finds that the introduction of christianity caused a stir in morality and thinking in those first few hundred years that propelled civilization forward and precisely because of the lack of institutions early christians had a greater freedom to explore the impact of revelation on their souls he discusses different christian sects diverging doctrines and the controversies that followed the role of jews in christianity the gnostics and eventually the establishment of the church neander also talks separately about the great doctrines of christianity dealing with the nature of god the name of god creation the trinity and numerous other issues that have been of great concern to christian thinkers throughout history anyone interested in the history of the christianity will find a wealth of information in this well researched book

the late antique and early medieval mediterranean was characterized by wide ranging cultural and linguistic diversity yet under the influence of christianity communities in the mediterranean world were bound together by common concepts of good rulership which were also shaped by greco roman persian caucasian and other traditions this collection of essays examines ideas of good christian rulership and the debates surrounding them in diverse cultures and linguistic communities it grants special attention to communities on the periphery such as the caucasus and nubia and some essays examine non christian concepts of good rulership to offer a comparative perspective as a whole the studies in this volume reveal not only the entanglement and affinity of communities around the mediterranean but also areas of conflict among christians and between christians and other cultural traditions by gathering various specialized studies on the overarching question of good rulership this volume highlights the possibilities of placing research on classical antiquity and early medieval europe into conversation with the study of eastern christianity
