pulitzer prize winner no book before this one has rendered the story of cigarettes mankind s most common self destructive instrument and its most profitable consumer product with such sweep and enlivening detail a great battleship of a book formidable majestic the new york times book review here for the first time in a story full of the complexities and contradictions of human nature all the strands of the historical process financial social psychological medical political and legal are woven together in a riveting narrative the key characters are the top corporate executives public health investigators and antismoking activists who have clashed ever more stridently as americans debate whether smoking should be closely regulated as a major health

menace we see tobacco spread rapidly from its aboriginal sources in the new world 500 years ago as it becomes increasingly viewed by some as sinful and some as alluring and by government as a windfall source of tax revenue with the arrival of the cigarette in the late nineteenth century smoking changes from a luxury and occasional pastime to an everyday to some indispensable habit aided markedly by the exuberance of the tobacco huskers this free enterprise success saga grows shadowed from the middle of this century as science begins to understand the cigarette's toxicity ironically the more detailed and persuasive the findings by medical investigators the more cigarette makers prosper by seeming to modify their product with filters and reduced dosages of tar and nicotine we see the tobacco manufacturers come under intensifying assault as a rogue industry for knowingly and callously plying their hazardous wares while insisting that the health charges against them remain unproven and are universally understood so smokers indulge at their own risk among the eye opening disclosures here outrageous pseudo scientific claims made for cigarettes throughout the 30s and 40s and the story of how the tobacco industry and the national cancer institute spent millions to develop a safer cigarette that was never brought to market dealing with an emotional subject that has generated more heat than light this book is a dispassionate tour de force that examines the nature of the companies culpability the complicity of society as a whole and the shaky moral ground claimed by smokers who are now demanding recompense

if you are looking to brush up on your literary knowledge check a favorite author's work or see a year's bestsellers at a glance the chronology of american literature is the perfect resource at once an authoritative reference and an ideal browser's guide this book outlines the indispensable information in america's rich literary past from major publications to lesser known gems while also identifying larger trends along the literary timeline who wrote the first published book in america when did edgar allan poe achieve notoriety as a mystery writer what was hemingway's breakout title with more than 8 000 works by 5 000 authors the chronology makes it easy to find answers to these questions and more authors and their works are grouped within each year by category fiction and nonfiction poems drama literary criticism and publishing events short concise entries describe an author's major works for a particular year while placing them within the larger context of that writer's career the result is a fascinating glimpse into the evolution of some of america's most prominent writers perhaps most important the chronology offers an invaluable line through our literary past tying literature to the american experience war and peace boom and bust and reaction to social change you'll find everything here from benjamin franklin's experiments and observations on electricity to davy crockett's first memoir from thoreau's civil disobedience to edith wharton's ethan frome from meditations by james weldon johnson and james agee to poetry by elizabeth bishop also included here are seminal works by authors such as rachel carson toni morrison john updike and arthur schlesinger jr lavishly illustrated and rounded out with handy bestseller lists throughout the twentieth century lists of literary awards and prizes and authors birth and death dates the chronology of american literature belongs on the shelf of every bibliophile

and literary enthusiast it is the essential link to our literary past and present

our society has a technology problem many want to disconnect from screens but can't help themselves these days we spend more time online than ever some turn to self-help measures to limit their usage yet repeatedly fail while parents feel particularly powerless to help their children unwired gaining control over addictive technologies shows us a way out rather than blaming users the book shatters the illusion that we autonomously choose how to spend our time online it shifts the moral responsibility and accountability for solutions to corporations drawing lessons from the tobacco and food industries the book demonstrates why government regulation is necessary to curb technology addiction it describes a grassroots movement already in action across courts and legislative halls groundbreaking and urgent unwired provides a blueprint to develop this movement for change to one that will allow us to finally gain control

tobacco is ranked as one of the major public health disasters of modern times this book pulls together the science of tobacco-related diseases with the policy of tobacco control to offer a comprehensive preventive medicine public health approach

spanning the era from the end of reconstruction 1877 to 1920 the entries of this reference were chosen with attention to the people events inventions political developments organizations and other forces that led to significant changes in the U.S. in that era seventeen initial stand-alone essays describe as many themes

historian Ramses Delafontaine presents an engaging examination of a controversial legal practice the historian as an expert judicial witness this book focuses on tobacco litigation in the U.S. wherein 50 historians have witnessed in 314 court cases from 1986 to 2014 the author examines the use of historical arguments in court and investigates how a legal context influences historical narratives and discourse in forensic history Delafontaine asserts that the courtroom is a performative and fact-making theatre nonetheless he argues that the civic responsibility of the historian should not end at the threshold of the courtroom where history and truth hang in the balance the book is divided into three parts featuring an impressive range of European and American case studies the first part provides a theoretical framework on the issues which arise when history and law interact the second part gives a comparative overview of European and American examples of forensic history this part also reviews U.S. legal rules and case law on expert evidence as well as extralegal challenges historians face as experts the third part covers a series of tobacco-related trials with remunerations as high as hundreds of thousands of dollars and no peer-reviewed publications or communication on the part of the historians hired by the tobacco companies the question arises whether some historians are willing to trade their reputation and that of their university for the benefit of an interested party the book further provides 50 expert profiles of the historians active in tobacco litigation lists detailing the manner of the expert's involvement and Westlaw references to these cases this book offers profound and thought-provoking insights on the post-war forensification of history from an interdisciplinary perspective in

this way delafontaine makes a stirring call for debate on the contemporary engagement of historians as expert judicial witnesses in u s tobacco litigation
