foreword by president george w bush with contributions from world renowned economists and nobel prizewinners the 4 solution is a blueprint for restoring america s economic health the united states is reaching a pivotal point in its economic history millions of americans owe more on their homes than they are worth long term unemployment is alarmingly high and the congressional budget office is projecting a sustainable growth rate

of only 2.3 a full percentage point below the average for the past sixty years unless a turnaround comes quickly the United States could be mired in debt for years to come and millions of Americans will be pushed to the sidelines of the economy. The 4 solution offers clear and unflinching ideas on how to revive America's economy. It sets a positive economic goal and asks some of the top economic minds on how to achieve it with a focus on removing government constraints. The 4 solution defines the policies that will allow Americans to save, invest, and create the jobs that the United States needs. The 4 solution draws on the best minds in the business including five Nobel laureates: Robert E. Lucas Jr. on the history and future of economic growth; Gary S. Becker on why we need immigrants in order to grow; Edward Prescott on the cost to growth of the welfare state; Vernon Smith on why housing leads us into and out of recessions; Myron Scholes on why we need to innovate in order to grow the economy.

special edition of the Federal Register containing a codification of documents of general applicability and future effect with ancillaries.

The Code of Federal Regulations is the codification of the general and permanent rules published in the Federal Register by the executive departments and agencies of the Federal Government.
