vols for 1871 76 1913 14 include an extra number the christmas bookseller separately paged and not included in the consecutive numbering of the regular series

in view of the persistent and growing swing towards the clinical application in the study of anatomy this classic text reference has been completely revised and updated the second edition of essentials of clinical anatomy reflects the importance of anthropology and comparative anatomy in modern teaching and contains a chapter on the anatomy of the physical examination the book opens with introductions to the origins and meanings of anatomical terms and to basic tissues and organ systems and then covers the upper limb vertebral column thorax head and neck lower limb abdomen and physical examination the first edition was known for its clear and direct style user friendly organization and attention to detail and the second edition does not deviate from this high standard in addition it is extensively illustrated with original artwork imaging studies and photographs new diagnostic and therapeutic techniques have been rendered possible by the explosive advances in radiological imaging entrapment neuropathies have emerged as important causes of painful syndromes the examples of how things have changed are numerous the practical use of these advances requires a sound anatomical background essentials of clinical anatomy second edition provides it

this book provides a written description of where everything is in the body its shape size relationship with other organs and passage for veins nerves etc which is essential for the medical student to be able to describe if you are getting lovely diagrams in your exam to label then a standard colour plate anatomy text will be fine but if for example you have to describe the surface anatomy and anatomical relationships of the duodenum then this book tells you how to do it it also has excellent how to draw sections such as how to draw the bones in the hand all the images are hand drawn so potentially able to be reproduced by the undifferentiated medical student
