this study investigates the idea and practice of liveness in modern music the book argues that liveness itself emerges from dynamic tensions inherent in mediated musical contexts tensions between music as an acoustic human utterance and musical sound as something produced or altered by machines

since 1960 with the advent of musical electronics composers and musicians have been using ever more sophisticated machines to create sonic material that presents innovation color and new styles electro acoustic electro house techno etc music the music of pierre henry kraftwerk pink floyd daft punk and many others has introduced new sounds improbable rhythms and a unique approach to composition and notation electronic machines have become essential they have built and influenced the music of the most recent decades and set the trend for future productions this book explores the theory and practice related to the different machines which constitute the universe of musical electronics omitting synthesizers which are treated in other works sequencers drum machines samplers groove machines and vocoders from 1960 to today are studied in their historical physical and theoretical context more detailed approaches to the elektron octatrack sequencer sampler and the korg electribe 2 groove machine are also included

music explores the deepest experiences of the human condition love violence religion hedonism protest and politics this book takes common themes in popular music and analyses them through a harms based critical criminology of music while staying focused on its aesthetic and sensory elements it analyses the sexism homophobia and heteronormative bias of the music industry considering its harms and dangers to the people working within it it also examines the influences of drugs and alcohol on both musicians and fans taking in music from across the globe the book considers its role in bringing hope whether on a personal or political level worldwide

in this companion to his popular introducing music otto karolyi offers a lively and comprehensive guide to modern music and provides the reader with some technical understanding of what happens when a twentieth century composition is being performed he looks at the ways in which modern music has moved away from traditional ideas of for example form tonality harmony rhythm orchestration and notation through careful and detailed explanation of this evolution he illuminates the works of composers such as stravinsky schoenberg bartok and many other musical innovators who have broken away from traditional formulae in their
