a concise beautifully illustrated historical atlas of korean history specifically designed for english speaking students of korean and east asian history

protected area governance and management presents a compendium of original text case studies and examples from across the world by drawing on the literature and on the knowledge and experience of those involved in protected areas the book synthesises current knowledge and cutting edge thinking from the diverse branches of practice and learning relevant to protected area governance and management it is intended as an investment in the skills and competencies of people and consequently the effective governance and management of protected areas for which they are responsible now and into the future the global success of the protected area concept lies in its shared vision to protect natural and cultural heritage for the long term and organisations such as international union for the conservation of nature are a unifying force in this regard nonetheless protected areas are a socio political phenomenon and the ways that nations understand govern and manage them is always open to contest and

debate the book aims to enlighten educate and above all to challenge readers to think deeply about protected areas their future and their past as well as their present the book has been compiled by 169 authors and deals with all aspects of protected area governance and management it provides information to support capacity development training of protected area field officers managers in charge and executive level managers

it s been ten years since open data first broke onto the global stage over the past decade thousands of programmes and projects around the world have worked to open data and use it to address a myriad of social and economic challenges meanwhile issues related to data rights and privacy have moved to the centre of public and political discourse as the open data movement enters a new phase in its evolution shifting to target real world problems and embed open data thinking into other existing or emerging communities of practice big questions still remain how will open data initiatives respond to new concerns about privacy inclusion and artificial intelligence and what can we learn from the last decade in order to deliver impact where it is most needed the state of open data brings together over 60 authors from around the world to address these questions and to take stock of the real progress made to date across sectors and around the world uncovering the issues that will shape the future of open data in the years to come
