this book celebrates milan s hosting of the world exposition expo in 2015 by providing fascinating insights into the city and its history that will appeal to all those visitors to expo 2015 who wish to understand fully what milan has to offer and what they are to see there combining straightforward language with academic thoroughness the book traces the evolution of milan from the previous expo in 1906 through to the present day readers will learn about the innovative contributions made by milan in many fields including industry architecture scientific research culture fashion design and food today milan is a smart city modern and at the forefront of progress it is the italian city always in touch with the world and able to compete with the most progressive foreign cities during the world exposition milan presents to visitors the best aspects of its history and its way of life this book is therefore an ideal reference source for visitors seeking to appreciate the past as well as the potential future contributions of the city to italy and the world

the science and practice of psychology has evolved around the world on different trajectories and timelines yet with a convergence on the recognition of the need for a human science that can confront the challenges facing the world today few would argue that the standard narrative of the history of psychology has emphasized european and american traditions over others but in today s global culture there is a greater need in psychology for international understanding this volume describes the historical development of psychology in countries throughout the world contributors provide narratives that examine the political and socioeconomic forces that have shaped their nations psychologies each unique story adds another element to our understanding of the history of psychology the chapters in this volume remind us that there are unique contexts and circumstances that influence the ways in which the science and practice of psychology are assimilated into our daily lives making these contexts and circumstances explicit through historical research and writing provides some promise of greater international insight as well as a better understanding of the human condition

attention to the issue of disabilities has intensified in recent decades prompting states and organizations to respond with appropriate measures to promote inclusion of persons with disabilities in all social environments this book s thesis is that the seeds of this inclusivity were planted by the development of tourism for people with disabilities in the nineteenth and twentieth centuries the book explores the development of tourism for people with disabilities in italy during this time period it adds an important tessera to the mosaic of international literature that has rarely considered the history of tourism and the history of disabilities in a unified manner while certainly of great interest to an italian audience the discussion of the various responses taking form in italy to the needs of persons with disabilities and the role these responses have played in the development of mass tourism generally is also quite pertinent to international contexts this book is based largely on unpublished sources the authors hope is that the presentation of these new materials combined

with the innovative approach of a historical study of tourism through the lens of disabilities will open up international scholarly debate and discussion drawing in contributions from all disciplines

building knowledge constructing histories brings together the papers presented at the sixth international congress on construction history 6icch brussels belgium 9 13 july 2018 the contributions present the latest research in the field of construction history covering themes such as building actors building materials the process of building structural theory and analysis building services and techniques socio cultural aspects knowledge transfer the discipline of construction history the papers cover various types of buildings and structures from ancient times to the 21st century from all over the world in addition thematic papers address specific themes and highlight new directions in construction history research fostering transnational and interdisciplinary collaboration building knowledge constructing histories is a must have for academics scientists building conservators architects historians engineers designers contractors and other professionals involved or interested in the field of construction history this is volume 2 of the book set

in reconstructing the history of modern spiritualism scholars have largely focused on its anglo american french and german developments often overlooking the italian context modern spiritualism in italian literature and culture 1765 1969 challenges this perspective by examining the italian case as a space of intersection between transnational currents of thought and deeply rooted cultural traditions from the enlightenment to the occult revival of the 1960s modern spiritualism in italy engaged with scientific discourse philosophical speculation literary imagination and catholic doctrine producing a hybrid intellectual landscape that remains largely understudied this volume traces the circulation and transformation of spiritualist ideas across different media and disciplines analysing their impact on literature psychology and science by situating italy within the broader european and transatlantic networks of occult knowledge modern spiritualism in italian literature and culture provides a new vantage point from which to rethink the historical evolution of modernity belief and the supernatural
