does the hundredth even exist merely to know that hundredth name balthasar is convinced is the key to salvation both for himself and the human race

an ambitious novel set in 1665 the tumultuous eve of the year of the beast when the world was supposed to come to an end antiquarian merchant and sage balthasar must go on an odyssey in search of a book that holds the secret of god's hundredth name which is the key to the survival of the world

in the koran there are 99 names for god does the 100th exist months before the dawn of the apocalyptic year of the beast 1666 balthasar embriaco a genoese levantine merchant embarks on a quest to find the answer he sets out on a journey that will take him across the breadth of the civilized world making his way to constantinople and on to smyrna and aleppo before embarking for the isle of

chios and sailing through the mediterranean via genoa and lisbon arriving in london shortly before the outbreak of the great fire the purpose of balthasar s expedition is to search for a copy of the rarest of books one entitled the one hundredth name merely to know this most secret of the names of god will balthasar believes ensure he is saved

the publication of hans urs von balthasar s seven volume the glory of the lord established von balthasar as one of the greatest and most influential catholic theologians of the twentieth century

schindler shows that liberalism is wrong not because it has simply relegated god to the private but because it has inverted the world giving us power without authority in what becomes a closed necessarily totalitarian horizon here nothing else can be done with the transcendent god but to find a quiet little place to keep him harmless and out of the way when we let god out a cosmic hierarchy of act of participation in being himself explodes into view and this changes everything a true integralism a true postliberalism moves politics back into a cosmos that is itself analogically ordered to participation in the life of god with the politics of the real schindler has elevated the postliberal conversation andrew willard jones director of catholic studies at franciscan university of steubenville and author of before church and state

how can theology think and talk about history building on the work of the major twentieth century theologian hans urs von balthasar as well as entering into sharp critical debate with him this book sets out to examine the value and the potential of a theodramatic conception of history by engaging in dialogue not only with theologians and philosophers like von balthasar hegel and barth but with poets and dramatists such as the greek tragedians shakespeare and gerard manley hopkins the book makes its theological principles open and indebted to literary forms and seeks to show how such a theology might be applied to a world intrinsically and thoroughly historical by contrast with theologies that stand back from the contingencies of history and so fight shy of the uncertainties and openness of christian existence this book s theology is committed to taking seriously the god who works in time

commemorating the 1700th anniversary of the council of nicaea this volume offers an original examination of the enduring impact of the single most famous gathering of christians since the apostolic age despite the longstanding historical and theological study of the council of nicaea several central questions remain was nicaea a theological event or a political one what does it mean if it was both was constantine s intervention without precedent or was he simply continuing a long standing role of a roman emperor who was responsible for leading a religious cult albeit now for a different faith tradition and what about the actual theological debates of nicaea and our ability to understand them scholars might never exhaust this avenue of inquiry despite the numerous studies in recent decades for many scholars and christian activists today the significance of nicaea centers around the idea of conciliarity and what this has meant

both historically and theologically for the christian community why and how did nicaea become foundational for thinking that the church operates in a conciliar manner how did that work historically in different parts of the christian world and how should it work today nicaea and the future of christianity offers a fresh globally diverse ecumenically minded approach to these questions with an impressive collection of both senior and junior scholars reflecting a diversity of views within the orthodox catholic and protestant traditions the great benefit of this wide ranging approach lies precisely in its ability to see the many ways in which nicaea continues to speak to the future of christianity

this book provides new insights on the unique role of doctoral students and new faculty as they join other stewards of the academy working within christian higher education weaving together a variety of voices graduate students pastors and seasoned scholars the book examines the christian university's relationship to the church and how faith and stewardship can guide the pursuit of teaching and scholarship

the prologue of the gospel of john identifies jesus christ as the eternal word or logos of the father who became flesh for the salvation of the world yet the world that christ saves is his world from the beginning for he is also the logos of creation the one through whom all things were made john 1:3 this divinely revealed claim has profound implications not only for theology but also for metaphysics whose relation to christian doctrine was undermined over the course of the twentieth century such that the christian faith has become an increasingly private affair rather than a credible account of reality and an invitation to participate more fully in it with christ the logos of creation john betz seeks to recover a christ centered analogical metaphysics and to establish the indispensability of such metaphysics for christian theology and the christian vision of reality in part i he dispels the fog of confusion about analogical metaphysics and addresses the ecumenical issues posed by karl barth's famous rejection of the *analogia entis* part ii demonstrates how analogical metaphysics helps to explain christian doctrine and sheds new light on the interrelationship between individual doctrines including trinitarian theology christology and soteriology and theological anthropology in part iii betz explores how this analogical perspective can aid in resolving a number of theological disputes including the metaphysical relationship between nature and grace and the issue of divine humility finally part iv outlines further directions toward a fully christological metaphysics that is proportionate both to the challenges of modern theology and the reality of our life in christ the logos

by identifying similarities in various books this annual selection guide helps readers to independently choose titles of interest published in the last year each entry describes a separate book listing everything readers need to know to make selections arranged by author within six genre sections detailed entries provide title publisher and publication dates series names and descriptions of character time period and geographical setting review citations story types brief plot summary selected other books by the author similar books by

different authorsauthor title series character name character description time period geographic setting and genre sub genre indexes are included to facilitate research

the dissolution of the french empire and the ensuing rush of immigration have led to the formation of diasporas and immigrant cultures that have transformed french society and the immigrants themselves transnational spaces and identities in the francophone world examines the impact of this postcolonial immigration on identity in france and in the francophone world which has encompassed parts of africa the middle east southeast asia and the americas immigrants bear cultural traditions within themselves transform host communities and are in turn transformed these migrations necessarily complicate ideals of national literature culture and history forcing a reexamination and a rearticulation of these ideals exploring a variety of texts informed by these transnational conceptions of identity and space the contributors to this volume reveal the vitality of francophone studies within a broad range of disciplines periods and settings they remind us that the idea and reality of francophonie is not a late twentieth century phenomenon but something that grows out of long term interactions between colonizer and colonized and between peoples of different nationalities ethnicities and religions truly interdisciplinary this collection engages conceptions of identity with respect to their physical geographic ethnic and imagined realities

the identification and positioning of sacred space within contemporary contexts has to date received scant attention in reflecting upon a broad spectrum of conceptions of what constitutes sacred space this collection of interdisciplinary essays presents a new perspective on an area that is developing into an important theological and philosophical concept
