in the recent decade governments worldwide are increasingly focusing on being community centric and outcomes based consequently they are starting to move
 towards outcomes based approaches to public financial management systems an outcomes based approach allows government service agencies and specific
 program areas to organize and communicate priorities to achieve what matters and makes a difference rather than just going through the motions empirical
 evidence on how government agencies in emerging economies go about this contemporary approach and issues affecting these practices is limited this edited
 collection of chapters is aimed at covering public sector reform and performance management in emerging economies with special reference to outcomes based
 approaches in practice in government services practices from developed economies contained in the first book on the topic have been published by routledge in
 february 2021 the insights offered on the topic are written by renowned scholars who have identified important issues pertinent to those interested in public sector
 governance accounting accountability and performance management effectiveness in emerging economies the book will be highly accessible to researchers
 academics and students in the fields of accounting public administration development studies and other non accounting audiences alike

partition s legacies offers a selection of joya chatterji s finest and most influential essays partition nation making frontiers refugees minority formation and
 categories of citizenship have been my preoccupations she writes in the preface and these are also the major themes of this book chatterji s first book bengal
 divided shifted the focus from muslim fanaticism as the driving force of partition towards secular nationalism and hindu aggression her spoils of partition rejected
 the idea of partition as a breaking apart showing it to be a process in the remaking of society and state her third book bengal diaspora cowritten with claire
 alexander and annu jalais challenged the idea of migration and resettlement as exceptional situations partition s legacies can be seen as continuous with chatterji
 s earlier work as well as a distillation and expansion of it chatterji is known for the elegance of her prose as much as for the sharpness of her insights into indian
 history and partition s legacies will enthrall everyone interested in modern india s apocalyptic past what emerges from the essays david washbrook writes in the
 introduction is often quite startling the demarcation of partition followed no master plan or even coherent strategy but was made up of myriad ad hoc decisions
 taken on the ground often by obscure actors refugee policy immigrant rights and even definitions of national citizenship were produced by no deus ex machina but
 out of day to day struggles on the streets and in the courts
