the new edition of this casebook retains the features that made it a success clear direct text introduces cases and explains important concepts a balance of modern and classic torts cases including *vaughan v menlove* on standard of care *vincent v lake erie transportation co* on doctrine of incomplete privilege *greenman v yuba power* on product liability appealing memorable problems based on actual reported cases that reinforce understanding and build analytical skills contemporary conception and content with the most current thinking on key issues ample background information that places cases and statutes in context varied note materials introductory and transitional notes that encourage close attention to cases and perspective notes that explore a range of viewpoints on tort law a comprehensive teacher's manual that includes sample syllabi and guidance for structuring 4 and 6 credit courses detailed suggestions for presenting and preparing cases and materials for class and answers and analysis to all problems and questions raised in the book the second edition of this popular casebook provides updated material throughout the text illuminates the procedural posture of every case refreshes and updates case selection in a number of chapters including those for standards of care statutory violation multiple sufficient causes foreseeability as a proximate cause test substantial factor as a proximate cause test assumption of risk and defamation supplies reworked notes and introductory sections particularly for *res ipsa loquitur* duty and professional standard of

care basic tort law cases statutes and problems second edition is thoroughly updated while retaining the direct approach that makes it a favorite with students and the proven pedagogy that makes it an essential teaching tool

against the background of the creation of an eu wide frame of reference for private law relevant to the common market this study which was requested by the eu commission analyses the dovetailing between contract and tort law on the one hand and between contract and property law on the other the study examines the legal orders of almost all the member states of the eu illustrates the differences between contractual and non contractual liability and evaluates the different systems of the transfer of property of movable and immovable securities as well as trust law the study comes to the conclusion that the intensive considerations on the creation of a model law in the area of european private law do not allow these thoughts to be limited to contract law such a limitation to the scope of the regarding of this area would probably cause more problems than it would solve or at any rate not do justice to the needs of the common market

offering comprehensive coverage that is suitable for one or two semester torts courses basic tort law cases statutes and problems fifth edition s flexible organization accommodates courses that begin either with coverage of intentional torts in chapter 2 or negligence beginning with chapter 3 chapters 9 17 allow teachers to select additional topics that fit best with their curriculum and interests key features cases edited to moderate length so professors can help students analyze judicial reasoning and treatment of policy implications practice oriented problems in each chapter a new section on the intentional tort of false imprisonment covering the concepts of confinement consent intentionality and the shopkeeper s privilege a new case addressing whether strict liability for abnormally dangerous activities applies to fracking which juxtaposed with another featured case illustrates the differing ways courts have approached the restatement factors a new case discussing joint and several liability offering a straightforward introduction that enhances or may be substituted for a more detailed treatment of this complicated area

shari seidman diamond scholars interested in psychology and law are fond of claiming origins for psycholegal research that date back four score and three years ago to hugo von munsterberg s on the witness stand published in 1908 these early roots can mislead the casual observer about the history of psychology and law vigorous and sustained research in the field is a recent phenomenon it is only 15 years since the first review of psychology and law appeared in the annual review of psychology tapp 1976 the following year saw the first issue of law and human behavior the official publication of the american psychology law society and now the journal of the american psychological association s division of psychology and law few psychology departments offered even a single course in psychology and law before 1973 while by 1982 1 4 of psychology graduate programs had at least one course and a number had begun to offer forensic minors and or joint j d ph d programs freeman roesch see chapter 28 yet this short period of less than 20 years has seen a dramatic level of activity its strengths and weaknesses excitements and disappointments are all captured in the collection of chapters published in this first handbook of psychology and law in describing what we have learned about psychology and law the works included here also reveal the questions we have yet to answer and thus offer a blueprint for activities in the next 20 years

comparative tort law promotes a learning by doing approach to comparative tort law and

comparative methodology each chapter starts with a case scenario followed by questions and expertly selected material such as legislation extracts of case law soft law principles and where appropriate extracts of legal doctrine using this material students are invited to solve the proposed scenario according to the laws of several jurisdictions compare the approaches and solutions they have identified evaluate their respective pros and cons and reflect upon the most appropriate approach and solution this book is essential reading for all students and scholars of comparative tort law and comparative law methodology and is the ideal companion for those wishing to both familiarise themselves with real world materials and understand the many diverse approaches to modern tort law

exploring the key discussions and arguments in tort law this book enables students to get a deeper and more rounded understanding of the subject part of the great debates series it is an engaging introduction to the more advanced legal concepts such as negligent breach of duty and vicarious liability each chapter is structured around questions and debates that provoke deeper thought it features summaries of the views of notable experts on key topics and each chapter ends with a list of further reading this book is ideal for use by ambitious students alongside a main course textbook encouraging them to think critically analyse the topic and gain new insights the development of these skills and the discursive nature of the series with an emphasis on contentious topics means the book is also useful for students when preparing their dissertations suitable for use on courses at all levels this book helps students to excel in coursework and exams

products liability and basic tort law is primarily intended as a supplement to whatever casebook is adopted in a law school products liability course law teachers using a case discussion method find that this invariably leaves numerous gaps in the material covered additionally many students need to have the material organized in a narrative format this book is intended to fill in the gaps provide greater depth to the materials normally covered in class and expand upon those materials by presenting subjects that cannot be assigned for class discussion given the inevitable time constraints the book covers all products liability theories express and implied warranty under the uniform commercial code fraudulent negligent and innocent misrepresentation strict liability and of course negligence because the book places products liability law into the larger context of tort law large sections are devoted to basic tort principles of duty actual and proximate cause damages defenses and third party claims for indemnity and contribution as a result the book would also be an excellent supplement to whatever casebook is being used in a traditional first year law school torts class in order to make it more useful to students the author has included for discussion and illustration purposes the classic products and tort cases contained in many of the major products liability and torts casebooks even when those cases could not be discussed in the text he has included many in the notes creating a table of cases that serves as a useful index for students in addition to tracing the development of modern products liability and tort doctrine the book discusses and analyzes many of the currently hot issues in products liability law and tort law not only clarifying the underlying issues but in many instances showing where and why recent lines of cases and developing doctrine fit in or more commonly fail to fit in to traditional legal concepts and traditional understanding about the respective roles of judges juries and legislatures for example the current push to carve out separate spheres for tort and contract law and the resulting incoherence of doctrine is a recurring theme as is the largely political impetus for tort and products liability reform in the courts state legislatures and congress the explanation and criticism of some emerging doctrine should provide practitioners with a valuable basis for

structuring a legal argument in an appropriate case

this revised second edition of comparative tort law global perspectives offers an updated and enriched framework for analysing and understanding the current state of tort law around the world using a critical comparative methodology it covers not only the common tort law issues but also many jurisdictions often overlooked in the mainstream literature contributions explore illuminating case studies from tort systems in europe the us latin america asia and sub saharan africa including new chapters specifically discussing tort law in brazil india and russia

since anu bradford s groundbreaking book on the brussels effect there is a vastly evolving literature on the eu as a global regulatory actor as well as the global reach of eu law this edited collection connects to this debate yet it shifts the focus from the currently predominant public law focus to investigating european and eu private law and to connecting to literature and research on transnational law to that end it proceeds first conceptually by introducing and giving shape to the notion of a european transnational private law through four conceptual contributions by the editors secondly it focuses on several sectors finance taxation investment consumer law labour law and topics climate litigation global value chains non discrimination to trace sector specifically the role of eu private law in relation to transnational legal ordering

this nutshell provides a comprehensive explanation of the basic principles and rules of american tort law as it exists today this nutshell has been used for over twenty five years by law students law graduates preparing for the bar exam and others seeking an overview of tort topics coverage includes intentional torts and defenses negligence and its defenses strict liability special liability rules for particular activities such as landowners liability products liability employers employees and contractors and others damages the relation between tort and contract immunities survival and wrongful death defamation privacy and misrepresentation the introductory chapter provides background on the definitional dilemma functions goals and justifications of tort law the evolution of tort law and the roles of judges and juries citations to the restatement of torts are included discussions frequently include not only the rule but also its rationale for a clearer understanding and to aid memory

the purpose of this book is to provide a clear and concise guide to the key elements of essential tort law the books in the essential series are intended as a helpful revision aid for the law student primarily at undergraduate level but they will be helpful to any students studying law as part of their course

this work is intended as a study revision aid for students rather than as a substitute for more detailed treatises it analyzes the law of tort in terms of the issues that are likely to be of interest to examiners and explains these areas in an accessible manner as well as summarizing existing academic opinion the emphasis throughout is on facilitating students understanding of a topic the new edition takes into account recent developments in the law of tort these include the increasing use of the law of negligence in sport further developments when suing public bodies for breach of a duty of care the increasing influence of the european court of human rights on the development of the law of tort changes in the method of calculating personal injuries damages the liability of internet service providers in the law of defamation and use of the qualified privilege defence in libel
