there has been a considerable amount of literature in the last 70 years claiming that the american founders were steeped in modern thought this study runs counter to that tradition arguing that the founders of america were deeply indebted to the classical christian natural law tradition for their fundamental theological moral and political outlook evidence for this thesis is found in case studies of such leading american founders as thomas jefferson and james wilson the pamphlet debates the founders invocation of providence during the revolution and their understanding of popular sovereignty the authors go on to reflect on how the founders political thought contained within it the resources that undermined in principle the institution of slavery and explores the relevance of the founders political theology for contemporary politics this timely important book makes a significant contribution to the scholarly debate over whether the american founding is compatible with traditional christianity

relation to contemporary issues of class race war and empire he considers obama in the context of our nation's political history with comparisons to fdr jfk bill clinton and other leaders street finds that the obama persona crafted by campaign consultants and filtered through dominant media trends masks the change candidate's adherence to long prevailing power structures and party doctrines he shows how american political culture has produced misperceptions by the electorate of obama's positions and values obama is no magical exception to the narrow spectrum electoral system and ideological culture that have done so much to define and limit the american political tradition yet the author suggests key ways in which obama potentially advances democratic transformation street makes recommendations on how citizens can productively respond to and act upon obama's influence and the broader historical and social forces that have produced his celebrity and relevance he also lays out a real agenda for change for the new presidential administration one that addresses the recent failures of democratic politics

american politics is typically a story about winners the fading away of defeated politicians and political movements is a feature of american politics that ensures political stability and a peaceful transition of power but american history has also been built on defeated candidates failed presidents and social movements that at pivotal moments did not dissipate as expected but instead persisted and eventually achieved success for the loser's ideas and preferred policies with legacies of losing in american politics jeffrey k tulis and nicole mellow rethink three pivotal moments in american political history the founding when anti federalists failed to stop the ratification of the constitution the aftermath of the civil war when president andrew johnson's plan for restoring the south to the union was defeated and the 1964 presidential campaign when barry goldwater's challenge to the new deal order was soundly defeated by lyndon b johnson in each of these cases the very mechanisms that caused the initial failures facilitated their eventual success after the dust of the immediate political defeat settled these seemingly discredited ideas and programs disrupted political convention by prevailing often subverting and occasionally enhancing constitutional fidelity tulis and mellow present a nuanced story of winning and losing and offer a new understanding of american political development as the interweaving of opposing ideas
