a fascinating book about a virtually unknown officer who played a major role in the development of us military planning before and during world war ii bowling green daily news a vital source of american intelligence on hitler s rise to power and military ambitions colonel truman smith was one of the most compelling and controversial figures of the second world war in exposing the third reich henry g gole tells this soldier s story for the first time an american aristocrat from a prominent new england family smith became an expert on germany when he was first assigned there during the allied occupation of 1919 as a military attaché in 1935 he arranged for his good

friend charles lindbergh to inspect the luftwaffe the germans were starstruck by the famous aviator enabling smith to gather key intelligence about their air capability his deep access and knowledge made him invaluable to general george c marshall however the colonel s friendliness with germany also aroused suspicion that he was a nazi sympathizer gole demonstrates that far from condoning hitler smith was among the first to raise the alarm he predicted many of the nazis moves years in advance and feared that the international community would not act quickly enough featuring many firsthand observations of the critical changes in germany between the world wars this biography presents an indispensable look both at a fascinating figure and at the nuances of the interwar years

muth examines the different paths the united states army and the german armed forces traveled to select educate and promote their officers in the crucial time before world war ii he demonstrates that the military education system in germany represented an organized effort where each school provided the stepping stone for the next but in the us there existed no communication about teaching contents among the various schools

the u s cavalry which began in the nineteenth century as little more than a mounted reconnaissance and harrying force underwent intense growing pains with the rapid technological developments of the twentieth century from its tentative beginnings during world war i the eventual conversion of the traditional horse cavalry to a mechanized branch is arguably one of the greatest military transformations in history through mobility we conquer recounts the evolution and development of the u s army s modern mechanized cavalry and the doctrine necessary to use it effectively the book also explores the debates over how best to use cavalry and how these discussions evolved during the first half of the century during world war i the first cavalry theorist proposed combining arms coordination with a mechanized force as an answer to the stalemate on the western front hofmann brings the story through the next fifty years when a new breed of cavalrymen became cold war warriors as the u s constabulary

was established as an occupation security police force having reviewed thousands of official records and manuals military journals personal papers memoirs and oral histories many of which were only recently declassified george f hofmann now presents a detailed study of the doctrine equipment structure organization tactics and strategy of u s mechanized cavalry during the changing international dynamics of the first half of the twentieth century illustrated with dozens of photographs maps and charts through mobility we conquer examines how technology revolutionized u s forces in the twentieth century and demonstrates how perhaps no other branch of the military underwent greater changes during this time than the cavalry

hanging sam chronicles the life of lt general samuel t hanging sam williams who after being relieved of his duties as assistant division commander of the 90th infantry division and demoted from the rank of brigadier general following the 1944 normandy invasion persevered to recover not only his lost star but two additional ones as well an accomplishment unmatched in modern u s army history following enlistment in the texas militia in 1916 to fight pancho villa along the u s mexican border williams served in both world wars the korean war where he commanded the 25th infantry division and vietnam where from 1955 to 1960 he was chief of the u s military assistance and advisory group wounded twice in battle williams was decorated with every medal for valor the army awards except the medal of honor

on the murderous road to racial purity hitler encountered unexpected detours largely due to his own crazed views and inconsistent policies regarding jewish identity after centuries of jewish assimilation and intermarriage in german society he discovered that eliminating jews from the rest of the population was more difficult than he'd anticipated as bryan rigg shows in this provocative new study nowhere was that heinous process more fraught with contradiction and confusion than in the german military contrary to conventional views rigg reveals that a startlingly large number of german military men were classified by the nazis as jews or partial jews mischlinge in the wake of racial

laws first enacted in the mid 1930s rigg demonstrates that the actual number was much higher than previously thought perhaps as many as 150 000 men including decorated veterans and high ranking officers even generals and admirals as rigg fully documents for the first time a great many of these men did not even consider themselves jewish and had embraced the military as a way of life and as devoted patriots eager to serve a revived german nation in turn they had been embraced by the wehrmacht which prior to hitler had given little thought to the race of these men but which was now forced to look deeply into the ancestry of its soldiers the process of investigation and removal however was marred by a highly inconsistent application of nazi law numerous exemptions were made in order to allow a soldier to stay within the ranks or to spare a soldier s parent spouse or other relative from incarceration or far worse hitler s own signature can be found on many of these exemption orders but as the war dragged on nazi politics came to trump military logic even in the face of the wehrmacht s growing manpower needs closing legal loopholes and making it virtually impossible for these soldiers to escape the fate of millions of other victims of the third reich based on a deep and wide ranging research in archival and secondary sources as well as extensive interviews with more than four hundred mischlinge and their relatives rigg s study breaks truly new ground in a crowded field and shows from yet another angle the extremely flawed dishonest demeaning and tragic essence of hitler s rule

following germany s defeat in world war i the germans signed the versailles treaty theoretically agreeing to limit their war powers the allies envisioned the future german army as a lightly armed border guard and international security force the germans had other plans

implementing the European Recovery Program and other US foreign policies required Marshall to attend numerous international conferences and Senate and House committee hearings and to cultivate broad public support for the initiatives. His close relations with legislative leaders proved to be essential for securing extraordinary bipartisan congressional approval. This volume ends with Marshall's appointment as president of the American Red Cross. This seventh and final volume of the papers of George Catlett Marshall covers the compelling and celebratory occasions during the last ten years of Marshall's life. During this time he also served as president of the American Red Cross which he wrote necessitated travel of more than 30,000 miles and it seems to me 30,000 interview with never a question about the Red Cross despite the Korean War. Marshall's strategic focus remained on Europe and with it the establishment of a NATO military commander under General Dwight D. Eisenhower sending additional US divisions to that command's efforts to convince the French to accept German rearmament within NATO obtaining congressional approval for a major US military buildup that included his long desired universal military training program and proposing a large military mutual security program for America's allies which involved expanded military aid to other areas of the world such as French Indochina. Marshall remained active and honored in retirement particularly in 1953 when he led the US delegation to the coronation of Queen Elizabeth II in June and won the Nobel Peace Prize in November. The first professional soldier to receive the honor he continued as head of the American Battle Monuments Commission traveled extensively made numerous public addresses maintained an extensive correspondence with national and international leaders and participated in anniversaries marking the success of the Marshall Plan. He also agreed to the establishment of the George C. Marshall Foundation to house his papers and participated in a series of oral histories with his authorized biographer Dr. Forrest C. Pogue. When he died on October 16, 1959 George Catlett Marshall was hailed by many as the nation's greatest soldier-statesman since George Washington. From the George C. Marshall Foundation website
