dreaming is a universal phenomenon nearly everybody dreams and is anxious to know what it means perhaps no other human experience has aroused so much interest and curiosity as this alien visitation that forces itself upon us without warning during the dead of sleep since antiquity thousands of books and articles have been written to shed some light on this mysterious and often unwelcome nightly visitor despite tremendous work in this field the riddle remains unsolved still no satisfactory answers have been provided to these basic questions why do we dream what are dreams about where do they come from how can we understand them this book is significantly different from those of others in this area as the answers presented are not the author s own views they are largely his dreams answers to the questions just posed instead of speculation this author a psychologist by profession has put forward what his own dreams have consistently and persistently revealed to him over the past thirty years since 1973 he has recorded over 100 000 dreams filling some 230 journals of 200 pages each the length of the dreams varies greatly some

consist of a single word or phrase others fill a page or more this book is written to share with others what the author has gained from his journey into the dreamworld and from his long and patient analysis of this vast number of dreams three conclusions have been drawn from this investigation 1 dreams are not caused by repressed sexual wishes somatic sources impressions of the preceding days or other mundane instigators as claimed by freud and his followers 2 dreams do have a supernatural source as pronounced by many writers through the ages and 3 through dreams this supernatural source reveals to us who we really are brings to light who he is and invites us to lead our own lives sensibly and purposefully using his own dreams as illustrations the author addresses a wide variety of topics relating to the domain of dreams including are dreams a source of creativity why do some of us have frequent nightmares can we control the content of our dreams why are dreams so cryptic how can we decipher our dream symbols to understand their meanings do characters in our dreams refer to persons we know of or do they stand for components of our own identity how should we understand the verbal contents of our dreams can dreams guide us as to how we should conduct our lives is the reality we experience during our dreams more dependable or the one we experience in waking life the main purpose of the book is to elucidate that dreams are trustworthy teachers in the realm of growth and self discovery we must regard as suspect whatever we learn from others however wise and well meaning but whatever is conveyed to us directly through dreams is credible since it emanates from within us and is free from inconsistencies and adulterations our major challenge is to understand the symbolic language used by the wise guide we have within

you can realize your dreams after all as a man thinks in his heart so he is is the place of your dreams not in your own heart however the big question is have you ever had a great dream in the day with your eyes wide open if not has one ever been revealed to you in your sleep my dear what have you done to and with your dreams did you transform them into creative physical thinking or did you allow someone to successfully lie to you that such dreams are signs of an impending illness usually in a place like africa when men dream great dreams they are accused of having a bout of malaria but the sheer truth is only men who have dreamt great dreams have also turned out to be great in life only nations who have dreamt great dreams have also turned out to be great in the committee of nations martin luther king jnr once had a dream bill gates also definitely did have a dream and today i have a new dream that you can become the man or woman of your own dreams the happy millionaire the quintessential preacher the excellent career person the best athlete the music star the banker par excellence name it you can be whatever you want to be basically a fantastic cruise to the zenith is an excellent allegorical guide to the place of your dreams wherever it is but beyond that it also guides you to a point of new discovery the zenith the state of assured eternal security the realm of abundance and the regime of highest achievements i count you rather blessed and favored to behold this divinely inspired message received in line with my vision to strengthen people especially my generation and those yet to come it is a book of life designed to answer to the needs of many from all cadres and from all ages it will answer to your very need the writing style is absolutely unique and essentially focused on general readership but with a systematic attempt to assert the symptomatic beauty of excellent living demystify the concept of human destiny construct a fulcrum for achieving a healthier happier and more successful human life here on earth and a profitable eternal life for the soul even after the first death a fantastic cruise to the zenith also makes strong reference to my theory of the democratic human tripod which is an elegant attempt to explain the tripartite composition of man with a view to

bringing all men to the truth that maketh free the book begins with an acclaimed must read prologue and has six 6 conceptual parts namely 1 a new beginning 2 the way 3 the vehicle 4 the cruise 5 the crossing 6 never to be forgotten the 1st part ends with a technical innovation to demystify the concept of human destiny and simply relates it to conscious envisioning and mission statements the 2nd part has got another practical innovation the balanced success map bsm which is an attempt to practically guide the reader or cruiser as he translates most constructively his current feasible dreams and wishes to some very highly achievable goals the 3rd part comes with yet another innovation the vehicle destiny 2 07 u20x model which is arguably the grandest vehicle in town you just can t wait to acquire it the 4th part introduces the reader to the practical applications of the already established principles whereas the 5th part dwells instructively on life after here which to me is the crux of the matter and just before the closure the 6th part appears to be asking would you be remembered after dust has become dust the overriding implication is that a fantastic cruise to the zenith may not just end at being sold bought and read it may also have to be studied and read over and over again my advice is for it to be by your pillow at night in your bag when on the move on your table at work and in your palms at the least o
