Conflict and Economic Development *José Rubén Churí, Jeffrey D. Sachs, Ricardo Bielschowsky, Edmund Amann, Duccio Cavalieri, Jorge I. Domínguez, Gerry Helleiner, Regional Employment Program for Latin America and the Caribbean, Gerald K. Helleiner, Juan Carlos de Pablo, Carlos Marcelo Flandroit, Andrés Solimano*

for dozens of developing countries the financial upheavals of the 1980s have set back economic development by a decade or more poverty in those countries has intensified as they struggle under the burden of an enormous external debt in 1988 more than six years after the onset of the crisis almost all the debtor countries were still unable to borrow in the international capital markets on normal terms moreover the world financial system has been disrupted by the prospect of widespread defaults on those debts because of the urgency of the present crisis and because similar crises have recurred intermittently for at least 175 years it is important to understand the fundamental features of the international macroeconomy and global financial markets that have contributed to this repeated instability this project on developing country debt undertaken by the national bureau of economic research provides a detailed analysis of the ongoing developing country debt crisis the project focuses on the middle income developing countries particularly those in latin america and east asia although many lessons of the study should apply as well to other poorer debtor countries the project analyzes the crisis from two perspectives that of the international financial system as a whole volume 1 and that of individual debtor countries volumes 2 and 3 this second volume contains lengthy and detailed case studies of four latin american nations argentina bolivia brazil and mexico providing a wealth of comparative data and new statistics on the general economic development of each nation the authors explore the various factors that contributed to the debt crisis in each country and analyze how the crisis was managed once it had taken hold trenchant economic analyses are enhanced by assessments of the stark political realities behind the policy choices facing each nation

this book provides a comprehensive analysis of the evolution of brazilian economic thought ranging from colonial times through to the early 21st century it explores the production of ideas on the brazilian economy through various forms of publication and contemporary thoughts on economic contexts and development policies all closely reflecting the evolution of economic history after an editorial introduction it opens with a discussion of the issue of the historical limits to and circumstances of the production of pure economic theory by brazilian economists the proceeding chapters follow the classical periodization of brazilian economic history starting with the colonial economy up until the early 19th century and the transition into an economy independent from portugal 1808 through the 1830s when formal independence took place in 1822 the third part deals with the coffee era 1840s to 1930s the last part covers the developmentalist and globalization eras 1930 2010 this book is ideal for international and national scholars in social sciences students in both undergraduate and graduate courses in economics and any individuals interested in brazilian economic and intellectual history

brazil is a globally vital but troubled economy this volume offers comprehensive insight into brazil s economic development focusing on its most salient characteristics and analyzing its structural features across various dimensions this innovative oxford handbook provides an understanding of the economy s evolution over time and highlights the implications of the past trajectory and decisions for current challenges and opportunities the opening section covers the country s economic history beginning with the colonial economy through import substitution to the era of neoliberalism second it analyses brazil s broader place in the global economy and considers the ways in which this role has changed and is likely to change over coming years particular attention is given to the productive sectors of brazil s economy for example manufacturing agriculture services energy and infrastructure in addition to discussions of regional differences within brazil socio economic dimensions are examined these include income distribution human capital environmental issues and health also included is a discussion of brazil in the world economy such as the increase in south south cooperation and trade as well as foreign direct investment last but not least is a discussion of the role of the brazilian state in the economy whether through state enterprises competition policy or corruption

first published in 1994 routledge is an imprint of taylor francis an informa company

the relationship between trade policy and industrialization has provoked much controversy can trade policy promote economic growth in developing countries those actively working in the area are becoming increasingly sceptical about the conventional advice given by international policy advisors and organizations this volume builds upon earlier theoretical and empirical research on trade policy and industrialization but is the first cross the board attempt to review developing country experiences in this realm for twenty years the experience of fourteen developing countries in the 1970s and 1980s is assessed by the contributors each of whom have a detailed understanding of their country s recent experience

with the relationship between trade policy and industrialization coming in for increasingly close scrutiny this book assesses how far trade policy has promoted economic growth in fourteen developing countries in the 1970s and 1980s

recent political economy theories are combined with valuable quantitative and qualitative information on presidential crises breakdowns of democracy constitutional reforms quality of institutions and social inequality and exclusion to understand actual country realties jacket
