this book has two purposes first to introduce the study of work and the workplace as a method for informing the design of computer systems to be used at work we primarily focus on the predominant way in which the organization of work has been approached within the field of human computer interaction hci which is from the perspective of ethnomethodology we locate studies of work in hci within its intellectual antecedents and describe paradigmatic examples and case studies second we hope to provide those who are intending to conduct the type of fieldwork that studies of work and the workplace draw off with suggestions as to how they can go about their own work of developing observations about the settings they encounter these suggestions take the form of a set of maxims that we have found useful while conducting the

studies we have been involved in we draw from our own fieldwork notes in order to illustrate these maxims in addition we also offer some homilies about how to make observations again these are ones we have found useful in our own work table of contents motivation overview a paradigmatic case scientific foundations detailed description case study how to conduct ethnomethodological studies of work making observations current status

bachelor thesis from the year 2016 in the subject art arts management grade 3 58 hawassa university course management language english abstract in order to be highly productive and being successful in any operation is somewhat a difficult task unless conflict is managed carefully in the organization therefore the main reason of conducting this research is to find out the sources of conflict to identify conflict resolution techniques and to know the positive and negative outcomes of conflict in the organization among the factors that accounted for the existence of conflict in the organization perpetual difference value difference modern technology and personality clashes were the most important the effort of management to understand the existing conflict in the organization is low which implies the weakness of management of the organization in handling conflict in general undertaking conflict and assessing conflict management practice is important task for the reduction of problems which exist in the organization
