civil military relations have been a consistent theme of the history of the weimar republic this study focuses on the career of general walther
 reinhardt the last prussian minister of war and the first head of the army command in the weimar republic though less well known than his
 great rival hans von seeckt reinhardt's role in forming the young reichswehr and his writings on warfare made him one of the most
 important and influential military figures in interwar germany contrary to the conventional view that civil military relations were fraught
 from the outset the author argues reinhardt's contribution to the military politics of the weimar republic shows that opportunities for reform
 and co operation with civilian leaders existed however although he is primarily seen as a liberal general this study demonstrates that he was
 motivated by professional military considerations and by the specter of a future war his ideas on modern warfare were amongst the most
 radical of the time

the german revolution of november 1918 is nowadays largely forgotten outside germany it is generally regarded as a failure even by those who
 have heard of it a missed opportunity which paved the way for the rise of the nazis and the catastrophe to come robert gerwarth argues here
 that to view the german revolution in this way is a serious misjudgement not only did it bring down the authoritarian monarchy of the
 hohenzollern it also brought into being the first ever german democracy in an amazingly bloodless way focusing on the dramatic events
 between the last months of the first world war in 1918 and hitler's munich putsch of 1923 robert gerwarth illuminates the fundamental and
 deep seated ways in which the november revolution changed germany in doing so he reminds us that while it is easy with the benefit of
 hindsight to write off the 1918 revolution as a failure this failure was not somehow pre ordained in 1918 the fate of the german revolution
 remained very much an open book

the societies of europe is a series of historical data handbooks on the development of europe from the nineteenth to the twentieth century the
 series is a product of the mannheim centre for social research a body dedicated to comparative research on europe and one of the leading social
 research institutes in the world it is a collection of datasets giving a clear and systematic study of long term developments in european society
 the data is presented statistically and is clearly comparative the societies of europe is the most comprehensive data series available on western
 european social issues

charles maier one of the most prominent contemporary scholars of european history published recasting bourgeois europe as his first book in
 1975 based on extensive archival research the book examines how european societies progressed from a moment of social vulnerability to one of
 political and economic stabilization arguing that a common trajectory calls for a multi country analysis maier provides a comparative history

of three european nations and argues that they did not simply return to a prewar status quo but achieved a new balance of state authority and interest group representation while most previous accounts presented the decade as a prelude to the depression and dictatorships maier suggests that the stabilization of the 1920s vulnerable as it was foreshadowed the more enduring political stability achieved after world war ii the immense and ambitious scope of this book its ability to follow diverse histories in detail and its effort to explain stabilization and not just revolution or breakdown have made it a classic of european history

volk war einer der meistverwendeten begriffe in der öffentlichen sprache während des umbruchs vom kaiserreich zur weimarer republik doch welche ideen verbanden die sprecher der politischen milieus von der sozialdemokratie bis hin zum nationalliberalismus mit ihm volk konnte entweder als gemeinschaft gleichberechtigter staatsbürger oder als abstammungsgemeinschaft ethnos oder als minderprivilegierte schicht plebs verstanden werden zudem ließe sich volk als pluralistisches oder holistisches gebilde denken die sprache von volk nation einheit und gemeinschaft gibt wichtige aufschlüsse darüber welche staats und gesellschaftskonzepte im diesbezüglich bislang nur wenig erforschten spektrum der politischen mitte vorherrschten jörn retterath zeigt dass es den der republik nabestehenden kräften nach der novemberrevolution 1918 letztlich nicht gelang eine der pluralistischen demokratie angemessene sprache zu etablieren stattdessen gewann das denken in holistischen kategorien an einfluss den nationalsozialisten wurde es so erleichtert sich zunächst vieldeutiger begriffe wie volkswille und volksgemeinschaft zu bemächtigen
