what we can do shows us the problems we are facing because of global warming this story gives us the incentive to make our planet a better place ask yourself what we can do and let's all get busy about the author illustrator cathy kravitz is an accomplished artist as well as teacher she lives in carmel indiana with her husband and two dogs cathy has two grown children who have always inspired her artwork what we can do is cathy's second book her first a dog's day is about giving and sharing in addition to writing and illustrating children's books cathy is a potter painter and art teacher her whimsical work and love for children inspire her students to create because there are no mistakes in art and the most important rule is to have fun a book about global warming

an illuminating work of massive insight on the complex ideas and events that initiated the historical shift between the 19th and 20th centuries alan moore author of v for vendetta and watchmen an always provocative view of an era that many people would just as soon forget an absorbing tour of the 20th century kirkus reviews in stranger than we can imagine john higgs argues that before 1900 history seemed to make sense we can understand innovations like electricity agriculture and democracy the twentieth century in contrast gave us relativity cubism quantum mechanics the id existentialism stalin psychedelics chaos mathematics climate change and postmodernism in order to understand such a disorienting barrage of unfamiliar and knotty ideas higgs shows us we need to shift the framework of our interpretation and view these concepts within the context of a new kind of historical narrative instead of looking at it as another step forward in a stable path we need to look at the

twentieth century as a chaotic seismic shift upending all linear narratives higgs invites us along as he journeys across a century about which we know too much in order to grant us a new perspective on it he brings a refreshingly non academic eclectic and infectiously energetic approach to his subjects as well as a unique ability to explain how complex ideas connect and intersect whether he s discussing einstein s theories of relativity the beat poets interest in eastern thought or the bright spots and pitfalls of the american dream

how to be a nurse or midwife leader is an indispensable guide for all nurses and midwives who wish to develop and improve their practice as leaders written in collaboration with the nhs leadership academy this practical book draws on the real experience of over 10 000 nurses and midwives to bring leadership dilemmas to life in specific situations key learning features include how to develop your self awareness how to develop your personal impact and presence how to survive and thrive how to get your message across how to get the best out of others how to work with and lead other professionals and patients how to have courageous conversations how to balance conflicting demands and needs containing exercises and reflective questions to help apply theory to leadership practice how to be a nurse or midwife leader is an ideal companion for all nurses and midwives whether you are newly qualified or stepping into a team leader role

terrible events are very hard to deal with and those who go through a trauma often feel permanently changed by it grief numbness anger anxiety and shame are all very common emotional reactions to traumatic incidents such as an accident or death of a loved one and ongoing traumatic events such as domestic abuse how we deal with the aftermath of trauma and our own emotional response can determine how quickly we are able to move on and get back to normality once more an integral part of the recovery process is not only recognising and accepting how our lives may have been changed but also learning to deal with feelings of shame an extremely common reaction to trauma recovering from trauma uses the groundbreaking compassion focused

therapy to help the reader to not only develop a fuller understanding of how we react to trauma but also to deal with any feelings of shame and start to overcome any trauma related difficulties

the first half of religion and the natural sciences is an introduction to the discussion of science and religion here the reader learns why there is any debate at all and what resources exist for responding to it the second half deals with specific issues that arise in the individual sciences from astronomy and physics to biology and ecology any project hoping to connect science and religion must supply the categories of connection which are found primarily although not exclusively in philosophy the simplicity of the arrangement and the nature of the selections are intended to make religion and the natural sciences available to as wide an audience as possible including students from the sciences and technology the professions the humanities and liberal studies and theology

real materialism draws together papers written over twenty years by galen strawson in philosophy of mind and metaphysics strawson focuses on five main areas of enquiry 1 the nature of the physical consciousness the mind body problem and the prospects for panpsychism 2 the self the subject of experience self consciousness and the narrative self 3 free will and moral responsibility 4 the nature of thought and intentionality and their connection with consciousness 5 the problem of causation with particular reference to the philosophy of david hume

as a journalist leigh sales often encounters people experiencing the worst moments of their lives in the full glare of the media but one particular string of bad news stories and a terrifying brush with her own mortality sent her looking for answers about how vulnerable each of us is to a life changing event what are our chances of actually experiencing one what do we fear most and why and when the worst does happen what comes next in this wise and layered book leigh talks intimately with people who ve faced the

unimaginable from terrorism to natural disaster to simply being in the wrong place at the wrong time expecting broken lives she instead finds strength hope even humor leigh brilliantly condenses the cutting edge research on the way the human brain processes fear and grief and poses the questions we too often ignore out of awkwardness along the way she offers an unguarded account of her own challenges and what she s learned about coping with life s unexpected blows warm candid and empathetic this book is about what happens when ordinary people on ordinary days are forced to suddenly find the resilience most of us don t know we have

an instant usa today and publishers weekly bestseller from the author of the wall street journal bestseller barking up the wrong tree comes a cure all for our increasing emotional distance and loneliness a smart surprising and thoroughly entertaining guide to help build better friendships reignite love and get closer to others whether you re an extrovert or introvert socially adept or socially anxious can you judge a book by its cover is a friend in need truly a friend indeed does love conquer all is no man an island in plays well with others eric barker dives into these age old maxims drawing on science to reveal the truth beyond the conventional wisdom about human relationships combining his compelling storytelling and humor barker explains what hostage negotiation techniques and marital arguments have in common how an expert con man lied his way into a twenty year professional soccer career and why those holding views diametrically opposed to our own actually have the potential to become our closest most trusted friends inside you will learn the two things essential to making friends and what dale carnegie got wrong what creates love reignites love and sustains love there s no build a bear store for a happy marriage but this is close the ethical and effective way to get your partner to change how social media can actually improve relationships the antidote to loneliness and why what we usually hear doesn t work and so much more the book is packed with high five worthy stories about the greatest female detective to ever live the most successful liar to ever open his mouth genius

horses thieving hermits the perils of perfect memories and placebos leveraging the best evidence available free of platitudes or magical thinking barker analyzes multiple sides of an issue before rendering his verdict what he s uncovered is surprising counterintuitive and timely and will change the way you interact in the world and with those around you just when you need it most
