multi rational management explains the concept of multirational management and illustrates it with many practical examples it has primarily been written for reflective practitioners i e those executives who continually think about their organisation and their own roles in that organisation

artist management in the music industries a sui generis form of management provides one of the first substantive academic examinations of the role of an artist manager this book deconstructs the nature of artist management unveiling the pivotal role of the artist manager in creating and sustaining a dynamic environment referred to as the loop where success is realised by navigating four variables risks relationships emotions and expectations 2rs and 2es within and beyond the loop this book offers a new perspective on artist management as a sui generis discipline that does not fit easily inside standard conceptions of management featuring ethnography and interviews this book sheds light on the realworld challenges and successes in the field it is a must read for researchers students and practitioners in the music business music marketing and artist management offering invaluable insights into the practices that shape the cultural landscape

this book is the first to cover marketing management issues in geographically remote industrial clusters grics the phenomena of grics have increased in importance especially in the nordic countries due to changes in industry structures as well as political ambitions the practice of marketing and marketing management is not singular to industry clusters in nordic countries remote areas in parts of the united states south and central america and south east asia exhibit similar tendencies the problems faced by many entrepreneurial managers managing start up or even existing enterprises are complex and require an in depth understanding not only of the problems themselves but also of the contextual framework in which these problems need to be solved this book contains original cases that cover issues like cluster formation information gathering marketing strategies and operations and information technology examples come from industries like textile furniture automobile agro machinery food wine software and management consulting

the role of firms corporations and businesses in shaping social outcomes has long been a key area of focus for economics and business scholars with growing attention on addressing climate change reducing social inequalities and upholding human rights there is an increasing interest in how corporate activities impact society this book examines these pressing issues through the lens of fundamental theories of the firm particularly drawing on the italian tradition of *economia aziendale* which views the firm as a vehicle for meeting human needs and generating social value the book begins by introducing the anthropocentric theory of the firm and explores the connection between accounting practices and sustainable management it offers a thorough review of the literature on corporate social responsibility csr and environmental social and governance esg practices highlighting key aspects of the extensive body of work in this field the analysis is grounded in the context of evolving regulations especially within the eu that underscore the importance of considering both financial and sustainability factors rational management theory is expanded to include sustainability accounting showcasing its pivotal role in corporate decision making the book provides detailed guidance on the integrated knowledge acquisition process showing how companies can systematically identify and assess their social and

environmental impacts this process is further illustrated through a hypothetical reality based case study demonstrating its application in a practical context the book concludes with an exploration of current trends and future directions in sustainability accounting it serves as a valuable resource for academics practitioners and anyone interested in the intersection of corporate governance accounting and sustainability

this classic textbook provides the clearest and most authoritative introduction available to working in situations characterised not only by risk and change but also by high pressure to deliver successful outcomes edited by three of the leading names in social work robert adams lena dominelli and malcolm payne provide an indispensable guide to successful social work practise its coherent and thoughtful coverage of practice situations involving complexity tension and uncertainty is uniquely geared to the needs of students in the final stages of their qualifying social work course professionals returning to study or those simply wishing to deepen their professional understanding
