texts of the edinburgh lectures on mental science the dore lectures on mental science the creative process in the individual and the law and the word

thomas troward was an early new thought writer who had an immense impact on those who would follow ernest holmes frederick bailes joseph murphy and emmett fox cited him as a major influence and genevieve behrend was his student it is impossible to over estimate his importance to the new thought movement his intense fusion of eastern and western philosophy is unmatched the law and the word explores the connection between thought energy scientific reasoning and creative power chapters include some facts in nature some psychic experiences man s place in the creative order the law of wholeness the soul of the subject the promises and death and immortality the creative process in the individual scientifically explains the sequence of creative activity starting from the beginnings of life through the development of mankind we each have a divine right of creation sharing in that divine power to create what is good will open up a wonderful vista of possibilities the edinburgh and dore lectures on mental science are required reading for anyone wishing to understand and control the power of the mind without these lectures the new thought movement and the science of mind might never have been born

the hidden power and other papers upon mental science by thomas troward

thomas troward 1847 1916 was an english author whose works influenced the new thought movement and mystic christianity troward s avocation was the study of comparative religion after his retirement from the judiciary in 1896 troward set out to apply logic and a judicial weighing of evidence in the study of matters of cause and effect in the present volume i have endeavored to set before the reader the conception of a sequence of creative action commencing with the formation of the globe and culminating in a vista of infinite possibilities attainable by every one who follows up the right line for their unfoldment i have endeavored to show that starting with certain incontrovertible scientific facts all these things logically follow and that therefore however far these speculations may carry us beyond our past experience they nowhere break the thread of an intelligible connection of cause and effect

e hidden power written by thomas troward is an important and key essay from the new thought movement of the early 20th century in the hidden power troward s hypothesis is that to realise fully how much of our present daily life consists in symbols is to find the answer to the old old question what is truth he seeks to teach readers that there is an inner and outer side to everything and the quality of the superficial mind which causes it to fail in the attainment of truth is its willingness to rest content with the outside only this is an excellent book for those who are

interested in key writings from the new thought movement and also those who are fans of the works by thomas troward

the author scientifically explains the sequence of creative action from the first beginnings of life through the development of the race to the need to the present day the perfect realization of the divine right of creation the knowledge of oneself made in the likeness of the great creative power and necessarily sharing in that power to create what is good will open up a wonderful vista of possibilities to all who follow unerringly the law of their own being
