participatory case study work shows academic co researchers how to adapt and implement their methods so that data collection and analysis is authentically participatory at the heart of this text is advocating a participatory approach to case study work with co construction as a catalyst for shared understanding and action in advancing ageing studies whilst case study research has a relatively long tradition in the canon of research methodologies little attention has so far been paid to the importance and value of participatory case study work this is surprising as its egalitarian and

democratic value base naturally lends itself to the co production and co creation of personal and collective theory drawn directly from lived experience the book brings together over 15 years worth of participatory case study work in ageing studies in which the editors have been actively involved as either front line researchers or as supervisors to phd and mphil studies adopting the methodology and from where each of the contributors is selected real life case examples are shared in the main chapters of the book and they provide direction as to how learning can be applied to other settings the chapters also contain key references and recommended reading this volume will appeal to undergraduate and postgraduate students as well as postdoctoral researchers interested in fields such as research methods qualitative methods ageing studies and mental health studies

contains information on various pennsylvania military orphan schools including description activities and finances with some registers of students

essay from the year 2015 in the subject leadership and human resources miscellaneous grade b sophia antipolis campus france skema business school language english abstract within my research paper i analyze how the further development of robotic devices will influence our working environment robots are going to change the global economy drastically with severe effects on the job market as recent studies outline in the united kingdom alone one third of jobs could be omitted due to the robot revolution in the united states with 47 percent even almost half especially in low skilled job fields robots could take many working spaces of human beings enormous social shifts would result even though a lot of people argue that technical advancement and therefore the further development of robotic devices bring advantages to our lives for the most part we have to start to realise that robots may replace our jobs and therefore adapt to a changing work environment more and more people are outcompeted by a non living species an unlikeable scenario that though will take place in the future and therefore people have to learn to deal with this new setting
