from the foreword it was not long ago that a company which adopted robot systems was said to be going boldly where no man had gone before this is no longer true there is now a great deal of experience in robot technology robots are no longer remarkable but they and their associated technologies are still the key to the future of manufacturing in this conference you will discover what difficulties were experienced how development problems were solved and most importantly what were the benefits gained the object of this conference is to spread the knowledge of the latest robot manufacturing technology and to assist you and your company to apply this technology to your operations

first published in 1997 this is an important and wide ranging book it is rooted in a fascinating research based case study of employee participation in the state owned greek public power electricity corporation drawing on extensive familiarity with the relevant literatures however it also provides a full appreciation of the significance of

this case by placing it within both the history and current framework of employee organisation and industrial relations in greece and the development of greece as a peripheral capitalist society in a global economy by exploring the issue of employee participation in this way dr psimmenos not only makes a unique original contribution to the study of industrial organisation and management worker relations in europe but also shows the impact which the institutions and processes of globalisation have upon a society and economy like greece part of the european union and also subject to the constraints of international capitalism globalisation and employee participation will be welcomed by academics and researchers in sociology politics industrial relations and political economy as well as those concerned with the history and present state of greece and other mediterranean societies it is a valuable scholarly addition to the literature in these areas
