document from the year 2025 in the subject leadership and human resources leadership language english abstract in order to successfully implement sustainable changes in a company in the context of change processes strong leadership is required at the top of a company which should have a great deal of empathy and a sure instinct in order to position the company in the market in the long term and profitably in order to successfully shape these sustainable changes it will not be the famous power of the leader of the past but will only work with the involvement of employees in the new world of work in the knowledge age which is characterized by digitalization and artificial intelligence this new form of leadership is also referred to as leadership 2 0 in which it is important to retain top performers and in particular key personnel in the company in the long term which is a very challenging leadership task in hr management in change processes a fundamental distinction must be

made between incremental change management and radical change management while incremental change takes place continuously and is integrated into everyday working life radical change represents a strategic realignment of the company which is largely associated with staff reductions and is intended to change the corporate culture this is particularly true in the case of restructuring where cost cutting programs play a decisive role in ensuring the long term survival of the company employees are more willing to go along with incremental change also known as continuous improvement than radical change as they could also be affected by staff cuts this fuels employees fears and therefore often leads to high staff turnover

most young people in europe today were born and have grown up in the digital era education authorities have the duty to ensure that these digital citizens are fully aware of the norms of appropriate behaviour when using constantly evolving technology and participating in digital life despite worldwide efforts to address such issues there is a clear need for education authorities to take the lead on digital citizenship education and integrate it into school curricula in 2016 the education department of the council of europe began work to develop new policy orientations and strategies to help educators face these new challenges and to empower young people by helping them to acquire the competences they need to participate actively and responsibly in digital society this volume the first in a digital citizenship education series reviews the existing academic and policy literature on digital citizenship education highlighting definitions actors and stakeholders competence frameworks practices emerging trends and challenges the inclusion of a wide selection of sources is intended to ensure sufficient coverage of what is an emergent topic that has yet to gain a strong foothold in either education or academic literature but has received wider policy attention
