insistent life is the first full length interdisciplinary treatment of the foundational principles and principles of application for engaging contemporary bioethics within the jain tradition the book fills a significant gap in both the fields of bioethics and jain studies since Jainism perhaps more so than any other south asian tradition is strongly focused on the ethics of birth life and death with regard to humans as well as other living beings Brianne donaldson and ana bajželj analyze a diverse range of Jain texts and contemporary sources on Jain doctrines and practices alongside bioethics to identify Jain perspectives on bioethical issues while highlighting the complexity of their personal professional and public dimensions the book also features extensive original data represented in visual graphs based on an international survey the authors conducted with Jain medical professionals in India and diaspora communities of North America Europe and Africa

disagreement is one of the deepest and most pervasive topics in philosophy arguably its very bedrock and is an ever increasing feature of politics ethics public policy science and many other areas despite the omnipresence of disagreement the topic itself has received relatively little sustained examination this outstanding handbook examines the philosophy of disagreement and how it extends to debates in public policy and science comprising 41 chapters by an international team of highly distinguished contributors the handbook is divided into six clear parts philosophy of disagreement epistemology of disagreement disagreement in science moral disagreement political disagreement and public policy within these sections key topics are examined including skepticism truth pluralism feminist philosophy philosophy of religion epistemology of peer disagreement ethics metaethics political philosophy rationality intellectual virtues relativism realism instrumentalism and scientific method ideal for those studying and researching philosophy and especially epistemology ethics and philosophy of science the Routledge handbook of philosophy of disagreement will also be of interest to those in related disciplines such as politics social policy and law

God made human beings in his image and that is what makes us so valuable yet there are vastly different ideas of what the image means and how sin affects the image and each of those ideas impacts the claim that the image grounds human value people have treated one another in either horrible or wonderful ways based on their theologies of the image this book examines the logical implications of various image doctrines in the real world also in Genesis 1:26-27 the image of God is closely tied to the first stated purposes of human life in Genesis 1:28 yet such practical purposes seem remote from the private spirituality of the gospel story often heard in churches to live out our part in God's creation project we need to understand the image of God within the unfolding story scripture narrates from creation to new creation this book builds a theology of the image of God by situating it firmly in the biblical narrative harnessing the insights of biblical theology and conversing with theologians past and present to form a coherent story of God his children and his creation in this age and the age to come
