with twenty five essays seven of which are new to the eighth edition this best selling volume examines the nature morality and social meanings of contemporary sexual phenomena topics include sexual desire and activity masturbation sexual orientation asexuality transgender issues zoophilia rape casual sex and promiscuity love and sex polyamory sexual consent sexual perversion sexual ethics objectification bdsm sex and technology sex and race and sex work updated and new discussion questions offer students starting points for debate in both the classroom and the bedroom

insistent life is the first full length interdisciplinary treatment of the foundational principles and principles of application for engaging contemporary bioethics within the jain tradition the book fills a significant gap in both the fields of bioethics and jain studies since Jainism perhaps more so than any other south asian tradition is strongly focused on the ethics of birth life and death with regard to humans as well as other living beings brienne donaldson and ana bajželj analyze a diverse range of Jain texts and contemporary sources on Jain doctrines and practices alongside bioethics to identify Jain perspectives on bioethical issues while highlighting the complexity of their personal professional and public dimensions the book also features extensive original data represented in visual graphs based on an international survey the authors conducted with Jain medical professionals in India and diaspora communities of North America Europe and Africa

leading philosophers discuss a range of issues relating to sex in this revised and expanded version of Alan Soble's popular anthology of essays new material includes date rape and sexual harassment

for three decades Alan Soble has supplied the authoritative roadmap for students and faculty who study the subject of sex in this new fifth edition of the Philosophy of Sex Soble and co editor Nicholas Power have collected thirty contemporary essays that explore philosophically conceptually and theologically the nature social meanings and morality of contemporary sexual phenomena contributors address myriad topics including cybersex and the internet masturbation contraception sexual perversion gay and lesbian sexuality same sex marriage casual sex and promiscuity pedophilia rape and date rape sexual use and objectification sexual relationships between teachers and students pornography and

prostitution new to this edition each of the thirty essays is preceded by an informative introduction written by the two editors and each essay is followed by a set of provocative study questions developed by the editors to stimulate critical thinking about sexuality contributing authors some of whom were commissioned for this new edition include martha nussbaum thomas nagel alan goldman john finnis sallie tisdale jerome neu robin west louise collins alan wertheimer greta christina john corvino cheshire calhoun raja halwani yolanda estes and others the editors provide a comprehensive bibliography of over 700 philosophical and general readings in sexuality intended in part as a textbook for use in university courses in the philosophy of sex gender and ethics the book is also a valuable resource for researchers in sexuality and a reader friendly introduction to puzzles about sexuality for anyone who enjoys exploring this ubiquitous human experience

the most reliable and comprehensive source of information about every major aspect of the lives of gay men and lesbians

contains chapter on abortion cloning euthanasia the death penalty and capital punishment race and discrimination gender issues sexual orientation poverty and welfare world hunger and environmental issues

this text provides coverage of the most discussed topics and up to date cases in medical ethics each topic is enriched with important background history and context and supplemented with a discussion of the most pertinent philosophical theories and ethical issues behind it anecdotal updates are included at the end of chapters to give readers insights into what has happened to some of the people involved in these cases

arguments about the environment in the history of western thought accompany a guide to developing an approach to environmental thought based on ecological attunement in this analysis of the fundamental concepts that ground environmental policy sustainability sustainable development and conservation are three concepts that illustrate the relationship between humans and the environment a synthesis of western eastern and aboriginal approaches to the environment offers a radically new way of thinking about how environmental ethics develop and evolve

in this exciting new book renowned ethicist richard spinello offers the first comprehensive presentation of the late john paul ii s great moral vision here admirers may read and understand the essential teachings of the pope in his own words as spinello draws on his extensive research into john paul ii s writings and talks subjects covered include reverence for life concern for the poor and suffering moral law conscience moral choice intrinsically evil acts freedom and goodness the purpose of this book is two fold it not only persuasively presents the late pope s vital teachings but also defends them against his critics this important new work preserves and promotes the extraordinary legacy of john paul ii by focusing on his championing of universal human dignity and objective moral truths

examines controversies involving the impact of science and technology on human life including a history of how the advances have raised social economic political religious or ethical questions and various positions that now exist on each issue

this is a work on the role of morality in the various components of the criminal justice system specifically the role of defense counsel and prosecutor the role of the police the court corrections probation and parole officers and the victims of crimes themselves as well as related issues

combining classical and contemporary readings with original essays pathways to philosophy offers an imaginative introduction to the art of philosophical reflection and wonderment the collection reflects the inherent multidisciplinary nature of the field revealing and exploring the connections between philosophy science and literature all material is carefully chosen edited and coordinated to ensure its accessibility to readers of all levels the result is a presentation that is engaging provocative and fun there are four main sections divided into twelve chapters held together by a common thread analysis and exploration of concepts and dimensions of the self the readings cover eastern as well as western traditions and include selections by both women and men in the process it provides coverage of a number of topics which though important are often omitted from introductory texts

the authors demonstrate that hume s views can stand up to contemporary criticism and are

relevant to current debates on causality

a world list of books in the english language

this innovative book takes a new look at environmental ethics and the need for ecological and biological integrity laura westra explores the necessity for radical alteration not only of interpersonal ethics but also of social institutions and public policy in the process westra denies the validity of majority rule in environmentally ethical concerns issues discussed in the book include the link between ecological integrity and human health an environmental evaluation of business and technology biotechnology and transgenics in agriculture and aquaculture and the environmental ethics of the ancient greeks and kant living in integrity is a valuable book for philosophers and environmentalists alike
